<div style="font-size: 2em; font-weight: bold; color: blue;">4</div>	<div style="text-align: center;"> Department of Environment and Natural Resources PROCESS DEFINITION Issuance of Free Patents over Agricultural Lands </div>	Document ID	DENR-PD-QM-901
		Revision No.	0 Issue No. 3
		Date Issued	DEC 16 2016
		Originating Office	QMS Core Team
		Page No.	1 of 4

1. SUMMARY

This document defines the process of issuance of Free Patents over public agricultural lands pursuant to Commonwealth Act 141, as amended by Republic Act No. 9176. This process is illustrated in the process flow map included in the DENR Quality Management Manual.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

The Free Patent is a legitimate proof of ownership of agricultural public land in the Philippines granted by the government. This process refers to the issuance of free patents over agricultural lands under Commonwealth Act 141, as amended by Republic Act No. 9176 dated November 13, 2002.

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps in the issuance of free patents over public agricultural lands.
- 4.2. The Free Patents shall be issued within the prescribed period as defined in the DENR Citizen's Charter No. 1.
- 4.3. The result of this process shall be made part of the documented information and shall be subject of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

- 5.1. CENRO
- 5.2. PENRO
- 5.3. REGION
- 5.4. CENTRAL OFFICE

6. PROCESS INPUTS

- 6.1. The documents required for this process are:
 - 6.1.1. Any document showing identity of land (e.g. lot number, survey card, tax declaration, Deed of Sale, etc.)
 - 6.1.2. Tax declaration, Proof of payment of taxes

<div style="text-align: center;">  </div>	Department of Environment and Natural Resources PROCESS DEFINITION Issuance of Free Patents over Agricultural Lands	Document ID	DENR-PD-QMS-001
		Revision No.	0 Issuance No. 10
		Date Issued	DEC 16 / 2016
		Originating Office	QMS Core Team
		Page No.	2 of 4

- 6.1.3. Duly accomplished Free Patent Application and prescribed forms, with the following attached documents:
 - 6.1.3.1. Proof of Claims/Ownership of Land (Waiver of Rights, Deed of Sale, etc.)
 - 6.1.3.2. Certified True Copy of Approved Survey Plan, Technical Description (TD) or Cadastral Map
 - 6.1.3.3. Affidavit of two (2) disinterested persons residing in the barangay or municipality where the land is located attesting that the applicant thereof has actually occupied and continuously cultivated the land either by himself or through his predecessors-in interest
 - 6.1.3.4. Certification from the Regional Trial Court concerned that there is no pending land registration case involving the parcel being applied for
 - 6.1.3.5. Certification from CENRO that the land is within the A and D
 - 6.1.3.6. Affidavit stating that the applicant is not the owner of more than twelve (12) hectares of land in the Philippines
- 6.1.4. Receipt of Payment of Application Fee

6.2. The resources required for this process are:

- 6.2.1. DENR Personnel
- 6.2.2. Travelling Expenses

6.3. The special training for the personnel required for this process are:

- 6.3.1. Land Disposition and Investigation

7. PROCESS STEPS

7.1. CENRO

- 7.1.1. The Records Officer, Land Records verifies the status of the land whether the same is titled or not, and/or claimed by others.
- 7.1.2. The Geodetic Engineer, Survey and Mapping Section determines the Land Classification Status, whether it is within the alienable and disposable (A&D) or not.
- 7.1.3. The CENRO, or implementing PENRO, signs and approves the Certification of Status of Land.
- 7.1.4. The Land Investigator/DPLI/Land Management Officer provides the client with:
 - 7.1.4.1. Checklist of Requirements;
 - 7.1.4.2. Free Patent Application Form and other prescribed forms; and
 - 7.1.4.3. Advice on the procedures.

<div style="text-align: center;"> <h1 style="margin: 0;">4</h1> </div>	Department of Environment and Natural Resources PROCESS DEFINITION Issuance of Free Patents over Agricultural Lands	Document ID	DENR-PD-QMS-001
		Revision No.	0 Issue No. [n]
		Date Issued	UEC 16 2016
		Originating Office	QMS Core Team
		Page No.	3 or 4

- 7.1.5. The Records Officer/Land Investigator/DPLI receives the application with complete supporting documents. She records, indexes and assigns number to the application.
- 7.1.6. The Land Investigator/DPLI computes the fees and prepares the Order of Payment. The client pays the corresponding fee and documentary stamp and is issued an official receipt.
- 7.1.7. Once payment is confirmed, the Land Investigator/DPLI conducts investigation on the land being applied for and submits investigation report with geo-tagged photo.
- 7.1.8. The Land Management Officer then prepares notices and letters to the barangay, municipality or city and applicant to be signed by the CENRO, or implementing PENRO. The notices are posted for fifteen (15) days in the barangay or municipality where the land is located.
- 7.1.9. For the patent preparation and processing:
 - 7.1.9.1. The Administrative Aide prepares B.L. Form 700-2A (Lot Data and Technical Description).
 - 7.1.9.2. The Staff, Patents and Deeds prepares the Order: Approval of Application and Issuance of Patent.
 - 7.1.9.3. The Administrative Aide prepares and types the information and technical description of the land in the Judicial Forms and prepares indorsement to the PENRO.
 - 7.1.9.4. The Geodetic Engineer verifies and certifies the correctness of the TD.
 - 7.1.9.5. The Chief, Patents and Deeds conduct preliminary review of the Free Patent Application (FPA).
- 7.1.10. The CENRO reviews and affixes his initial on the patent and sign the indorsement.
- 7.1.11. The carpeta is transmitted to the PENRO.

7.2. PENRO

- 7.2.1. Once the carpeta is received, the Chief, Patents and Deeds conduct a final review of the free patent documents.
- 7.2.2. The Chief, Technical Services reviews and affixes his initial on the free patent documents. The documents are then endorsed to the PENRO.
- 7.2.3. The PENRO signs the Order: Approval of Application and Issuance of Patent.
- 7.2.4. A Patent Number is assigned before transmitting the documents to the Register of Deeds.

1. SUMMARY

This document defines the process of issuance of Survey Authority (DENR Administrative Order 2007-29 dated July 31, 2007 or the Revised Regulations on Land Surveys). This process is illustrated in the process flow map included in the DENR Quality Management Manual.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Emesto D. Adobo, Jr.

3. PROCESS DEFINITION

Survey Authority refers to the permit issued by the concerned DENR Official to a government Geodetic Engineer to conduct isolated survey over public lands for public land application purposes. This permit is required prior to the conduct of surveys of lands of the public lands.

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps required for the issuance of survey authority.
- 4.2. The survey authority shall be issued within the prescribed period as defined in the DENR Citizen's Charter No. 2.
- 4.3. The result of this process shall be made part of the documented information and shall be subject of Management Review.

5. PROCESS OWNER AND RESPONSIBLE PARTY

The CENRO is the responsible office for this process.

6. PROCESS INPUTS

- 6.1. The documents required for this process are:
 - 6.1.1. Duly accomplished Letter-Request Form and any document showing the identity of the land (e.g. Lot number, survey card, tax declaration, Deed of Sale, etc.)
 - 6.1.2. Survey Authority form duly signed by the applicant and private Geodetic Engineer
 - 6.1.3. Proof of claims/acquisition of the property (e.g. Deed of Sale, Waiver of Rights, Tax Declaration, etc.)
 - 6.1.4. Order of Payment and Official Receipt

<div>4</div> <div>Department of Environment and Natural Resources</div> <div>PROCESS DEFINITION</div> <div>Issuance of Survey Authority</div>	Document ID	DEN R-PD-QMS-002
	Revision No.	0 Issue-No. 03

	Originating Office	QMS Core Team
	Page No.	2 of 3

6.2. The resources required for this process are:

- 6.2.1. DENR Personnel
- 6.2.2. Travelling Expenses
- 6.2.3. Equipment

6.3. The special training for the personnel required for this process are:

- 6.3.1. Land Disposition and Investigation
- 6.3.2. Equipment operation

7. PROCESS STEPS

- 7.1. The CENRO Receiving Clerk receives and enters the duly accomplished Letter-Request in the record book.
- 7.2. The Records Officer, Land Investigator/Deputy Public Land Investigator (DPLI) verifies the status of the land, whether it is titled or not and/or claimed by others.
- 7.3. The Chief, FMS determines the land classification status.
- 7.4. The Land Investigator/DPLI provides the applicant with the checklist of requirements: (1) Survey Authority, and (2) advice about the procedures.
- 7.5. The applicant submits the complete documentary requirements. The Receiving Clerk receives and checks the completeness of the documents submitted based on the checklist.
- 7.6. The Chief, FMS prepares the Order of Payment for the Inspection Fee.
- 7.7. The Bill Collector accepts the payment of the applicant and issues the Official Receipt.
- 7.8. After payment, the CENRO assigns a Land Investigator/DPLI to handle the request.
- 7.9. The assigned Land Investigator/DPLI conducts field investigation, prepares the Investigation Report and recommendations, and submits the documents/reports to the Chief, FMS for review.
- 7.10. The Chief, FMS reviews the documents/reports and endorse the same to the CENRO for consideration.
- 7.11. The CENRO signs the Survey Authority and Investigation Report.
- 7.12. The Clerk/Records Officer assigns a control number on Survey Authority and enters this into the record book.
- 7.13. The Survey Authority is then released to the applicant.

		Revision No.	0 J Issue No <i>fn.1</i>
		Date Issued	DEC 16 2016
		Originating Office	QMS Core Team
		Page No.	1 of 2

1. SUMMARY

This document defines the process of issuance of Certificate of Tree Plantation Ownership (CTPO) for not more than 1,000 hectares. This process is illustrated in the process flow map included in the DENR Quality Management Manual.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

The Certificate of Tree Plantation Ownership (CTPO) is a document issued by the DENR local official at the CENRO level to all private plantation within titled or tax declared alienable and disposable (A&D) lands inside their area of jurisdiction (DENR Memorandum Order 1999-20 entitled *"Supplemental Guidelines Governing the Registration, Harvesting, Transport and Marketing of Timber By-Products coming from Private Plantations within Private Lands or Tax Declared Alienable or Disposable Lands"*). This defines the process taken in the issuance of CTPO for not more than 1,000 hectares.

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps required for the issuance of CTPO for not more than 1,000 hectares.
- 4.2. The issuance of CTPO for not more than 1,000 hectares shall be within the prescribed period as defined in the DENR Citizen's Charter No. 3.
- 4.3. The result of this process shall be made part of the documented information and shall be subject of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

The CENRO is the responsible office for this process.

6. PROCESS INPUTS

- 6.1. The documents required for this process are:
 - 6.1.1. Letter request of the applicant
 - 6.1.2. Certified and Verified Copy of the Title or Tax Declaration
 - 6.1.3. Pictures of the site
 - 6.1.4. Order of Payment and Official Receipt
- 6.2. The resources required for this process are:
 - 6.2.1. DENR Personnel
 - 6.2.2. Travelling Expenses

<div style="font-size: 2em; font-weight: bold; margin-bottom: 5px;">4</div> <div style="border-bottom: 2px solid green; width: 100px; margin-bottom: 5px;"></div> <div style="border-bottom: 2px solid green; width: 100px;"></div>	Department of Environment and Natural Resources PROCESS DEFINITION Issuance of Certificate of Tree Plantation Ownership (CTPO) for not more than 1,000 Hectares	Document ID	DENR-PD-QMS-003

6.2.3. Equipment

6.3. The special training for the personnel required for this process are:

6.3.1. Tree Inventory

6.3.2. Equipment operation

7. PROCESS STEPS

- 7.1. The Receiving Clerk receives and records the letter request and documentary requirements submitted by the client.
- 7.2. The CENRO gives instructions to the Chief, FMS to assign personnel to inspect/verify the request and prepare Order of Payment. The client pays the corresponding fee and is issued an Official Receipt.
- 7.3. After payment is settled, the Inspection/Evaluation Team conducts tree inventory in the area.
- 7.4. The Chief, Forest Engineering & Infra Unit plots the coordinates of the area in control map and prepares the map.
- 7.5. The Inspection/Evaluation Team prepares and submits the report to the Chief, FMS.
- 7.6. The Chief, FMS evaluates and reviews the report.
- 7.7. The Chief, FMS, and Chief, Utilization Unit prepare the CTPO and affix their initials on the file copy and endorse the CTPO to CENRO for consideration.
- 7.8. The CENRO approves the CTPO then release to the client.

8. PROCESS OUTPUTS

The results of the process are:

8.1 . Product: Certificate of Tree Plantation Ownership

8.2. Documented Information:

- 8.2.1. Letter request of the applicant
- 8.2.2. Certified and verified copy of the title or tax declaration

	Department of Environment and Natural Resources PROCESS DEFINITION Issuance of Certificate of Verification (Cutting/Transport Non-Wood Forest Products within Private Land)	Document ID	DENR-PD-QMS-004
		Revision No.	0 Issue No. - Jn 1
		Date Issued	nrr 1 li ?nlf
		Originating Office	QMS Core Team
		Page No.	1 of 2

1. SUMMARY

This document defines the process of issuance of Certificate of Verification (CV) on cutting/transporting of non-wood forest products, e.g. bamboo, vines, nipa, etc., within private land. This process is illustrated in the process flow map included in the DENR Quality Management Manual.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00,2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

The Certificate of Verification (CV) is a document issued by the DENR local official at the CENRO level to show that the non-wood forest products come from private lands indicating the quantity, volume, type of forest products and destination/consignee of the commodities. This process defines the issuance of CV on cutting/transport of non-wood forest products, e.g. bamboo, vines, nipa, etc., within private land.

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps required for the issuance of CV (cutting/transport non-wood forest products within private land e.g. bamboo, vines, nipa, etc.).
- 4.2. The issuance of CV (cutting/transport non-wood forest products within private land e.g. bamboo, vines, nipa, etc.) shall be within the prescribed period as defined in the DENR Citizen's Charter No. 4.
- 4.3. The result of this process shall be made part of the documented information and shall be subject of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

The CENRO is the responsible office for this process.

6. PROCESS INPUTS

- 6.1. The documents required for this process are:
 - 6.1.1. Request Letter
 - 6.1.2. Photocopy of Tax Declaration or Land Title
 - 6.1.3. Order of Payment and Official Receipt

<div><div>4</div><div></div><div></div></div>	Department of Environment and Natural Resources	DocumcmiD	DENR-PD-QMS-004

		Page No.	2 of 2

6.2. The resources required for this process are:

- 6.2.1. DENR Personnel
- 6.2.2. Travelling Expenses
- 6.2.3. Equipment

7. PROCESS STEPS

- 7.1. The Receiving Clerk receives and records the letter request and documentary requirements submitted by the client.
- 7.2. The CENRO refers the request to the Chief, Forest Management Section (FMS) for evaluation.
- 7.3. After evaluation, the request is referred to the Chief, Utilization Unit for review and inspection. The Chief, Utilization Unit assigns a Forest Ranger to conduct inspection.
- 7.4. The Forest Ranger, Utilization Unit conducts the actual inspection of the forest products in the area, prepares the Inspection Report and Order of Payment and submits this to the Chief, FMS.
- 7.5. The Chief, FMS reviews the Inspection Report and signs the Order of Payment.
- 7.6. The client pays the CV Fee and Oath Fee. The Bill Collector/Cashier issues an official receipt.
- 7.7. After the payment, the CV is prepared. The Chief, FMS places his initial on the document and endorses the same to the CENRO for consideration.
- 7.8. The CENRO approves the CV.
- 7.9. The Releasing Clerk releases the CV to the client.

8. PROCESS OUTPUTS

The results of the process are:

- 8.1. Product: Certificate of Verification for Cutting/Transport of Non-Wood Forest Products within Private Land
- 8.2. Documented information:
 - 8.2.1. Request Letter
 - 8.2.2. Photocopy of Tax Declaration or Land Title
 - 8.2.3. Inspection Report
 - 8.2.4. Official Receipt

<div style="text-align: center;">  </div>	Department of Environment and Natural Resources PROCESS DEFINITION Application for Chainsaw Registration	Document ID	DENR-PD-QMS-006
		Revision No.	01st Issue - 11
		Date Issued	OCT 16 2016
		Originating Office	QMS Core Team
		Page No.	I of 2

1. SUMMARY

This document defines the process of Application for Chainsaw Registration (pursuant to Republic Act No. 9175 and DENR Administrative Order No. 2003-24). This process is illustrated in the process flow map included in the DENR Quality Management Manual.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobe, Jr.

3. PROCESS DEFINITION

The Chainsaw refers to any portable power saw or similar cutting implement, rendered operative by an electric or internal combustion engine that may be used for, but is not limited to the felling of trees or the cutting of timber. All persons who own or are otherwise in possession of chainsaws are required by law to register the same with the Department, through any of its Community Environment and Natural Resources Office (CENRO). The CENRO shall issue the corresponding registration certificate or permit if it finds such persons to be qualified pursuant to Republic Act 9175 or the Chain Saw Act of 2002 and DENR Administrative Order No. 2003-24. This defines the process of applying for Chainsaw Registration.

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps required for the issuance of Certificate of Chainsaw Registration.
- 4.2. The Certificate of Chainsaw Registration shall be issued within the prescribed period as defined in the DENR Citizen's Charter No.6.
- 4.3. The result of this process shall be made part of the documented information and shall be subject of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

The CENRO is the responsible office for this process.

6. PROCESS INPUTS

- 6.1. The documents required for this process are:
 - 6.1.1. Official Receipt
 - 6.1.2. Stencil Serial Number of Chainsaw
 - 6.1.3. Duly accomplished Application Form
 - 6.1.4. Detailed Specification of Chainsaw (e.g. brand, model, engine capacity, etc.)

<div>4</div>	<div>Department of Environment and Natural Resources</div> <div>PROCESS DEFINITION</div> <div>Application for Chainsaw Registration</div>	Document ID	DE R-PD-QMS-006
		Revision No.	0 Issue No. 1
		Date Issued	
		Originating Office	oMS _{core} 1-1
		Page No.	2 of 2

6.1.5. Order of Payment

7. PROCESS STEPS

- 7.1. The application form and supporting documents are received by the CENRO Receiving Clerk.
- 7.2. The CENRO Focal Person/Forester/ Chief, FMS prepares and signs the Order of Payment.
- 7.3. The client pays the registration fee and forwards the copy of the official receipt (OR) to the CENRO Focal Person.
- 7.4. The Chief, FMS/Forester verifies the supporting documents and inspects the chainsaw. After verification, she prepares the Certificate of Registration, affixes his/her initial and endorses the document to the CENRO for consideration.
- 7.5. The CENRO approves the Certificate of Registration.
- 7.6. The Releasing Clerk records and assigns a control number to the chainsaw before releasing the Certificate to the client.

8. PROCESS OUTPUTS

The results of the process are:

- 8.1. Product: Certificate of Registration
- 8.2. Documented information:
 - 8.2.1. Duly accomplished Application Form
 - 8.2.2. Detailed specification of chainsaw (e.g. model, brand, engine capacity)
 - 8.2.3. Official Receipt from DENR-CENRO for chainsaw registration
 - 8.2.4. Stencil serial number of chainsaw

1. SUMMARY

This document defines the processing of CITES Permit Applications for the import of wildlife, including its by-products and derivatives. This process is illustrated in the process flow map included in the DENR Quality Management Manual.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

The Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) Import Permit refers to the permit issued authorizing an individual to bring into the Philippines wildlife listed under the CITES Appendices, including its by-products or derivatives, from other countries, as defined in DAO 2004-55 dated August 31, 2004 entitled *"DENR Streamlining/Procedural Guidelines pursuant to the Joint DENR-DA-PCSD Implementing Rules and Regulations of Republic Act No. 9147 otherwise known as "Wildlife Resources Conservation and protection Act"*. The process defines the processing of CITES Permit Applications for the Import of Wildlife, including its by-products and derivatives.

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps required in the processing of CITES permit applications for the import of wildlife, including its by-products and derivatives.
- 4.2. The CITES Import Permit shall be issued within the prescribed period as defined in the DENR Citizen's Charter No.7.
- 4.3. The result of this process shall be made part of the documented information and shall be subject of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

The Biodiversity Management Bureau (BMB) is the responsible office for this process.

6. PROCESS INPUTS

- 6.1. The documents required for this process are:
 - 6.1.1. Duly accomplished application form
 - 6.1.2. Export permit/certification of origin from exporting country

<div>4</div>	Department of Environment and Natural Resources PROCESS DEFINITION Processing of CITES Permit Applications for the Import of Wildlife, including by-products and derivatives	Document iD	DENR-PD-QMS-007

6.2.1. Personnel

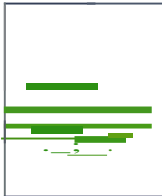

7. PROCESS STEPS

- 7.1. The Records Unit receives the application together with the documentary requirements and forwards the same to the Wildlife Regulation Section (WRS).
- 7.2. The CITES Officer, WRS evaluates the completeness of the documents submitted. If the documents are complete, the Order of Payment is prepared. Otherwise, the application is returned to the client.
- 7.3. The client pays the required fee and s/he is issued an official receipt (OR). She presents the original copy of the OR to the WRS.
- 7.4. The CITES Officer, WRS drafts and submits the CITES import *Permit* to the Chief, WRS for review.
- 7.5. The Chief, WRS reviews, affixes initial and endorses the permit to the Chief, Wildlife Resources Division (WRD).
- 7.6. The Chief, WRD reviews, affixes initial and endorses the permit to the Assistant Director's Office.
- 7.7. The Assistant Director reviews, affixes initial and endorses the permit to the Director's Office.
- 7.8. The Director approves/signs the CITES Import Permit and forward signed permit to the Records Unit.
- 7.9. The Records Unit affix a permit number, the CITES and agency seals, and the dates of issuance and expiry prior to release to the client.

8. PROCESS OUTPUTS

The results of the process are:

- 8.1. Product: CITES Import Permit
- 8.2. Documented information:
 - 8.2.1. Duly accomplished application form
 - 8.2.2. Export permit/certification of origin from exporting country
 - 8.2.3. For live specimens, Phytosanitary (for wild plants) Neterinary Certificate (for wild animals) issued by the authorized government agency of the country of origin

1. SUMMARY

This document defines the processing of CITES Permit Applications for the Export/Re-export of Wildlife, including its by-products and derivatives. This process is illustrated in the process flow map included in the DENR QMS Manual.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00,2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

- 3.1. CITES Export Permit refers to a permit authorizing an individual to bring, send or transport wildlife listed under the CITES Appendices, including its by-products or derivatives, from the Philippines to other countries in accordance with DAO 2004-55 dated August 31, 2004 entitled *"DENR Streamlining/Procedural Guidelines pursuant to the joint DENR-DA-PCSD Implementing Rules and Regulations of Republic Act No. 9147 otherwise known as "Wildlife Resources Conservation and protection Act"*.
- 3.2. CITES Re-export Permit refers to a permit authorizing an individual to bring out of the country wildlife listed under the CITES Appendices, including its by-products or derivatives, which were previously exported/imported (DAO 2004-55).
- 3.3. This document defines the processing of CITES permit applications for the export/re-export of wildlife including its by-products and derivatives.

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps required for the processing of CITES Permit Applications for the Export/Re-export of Wildlife, including its by-products and derivatives.
- 4.2. The CITES Export/Re-export Permit shall be issued within the prescribed period as defined in the DENR Citizen's Charter No. 8.
- 4.3. The result of this process shall be made part of the documented information and shall be subject of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

This Biodiversity Management Bureau (BMB) is the responsible office for this process.

6. PROCESS INPUTS

6.1. The documents required for this process are:

6.1.1. Export

- 6.1.1.1. Duly accomplished application form
- 6.1.1.2. Inspection of wildlife by the DENR-BMB within 3 days
- 6.1.1.3. Documents supporting the legal possession or acquisition of wildlife
- 6.1.1.4. Bank export declaration, if for commercial purposes
- 6.1.1.5. Local Transport Permit, where applicable
- 6.1.1.6. Phytosanitary (for wild plants) / Veterinary Certificate (for wild animals)
- 6.1.1.7. Order of Payment/Official Receipt

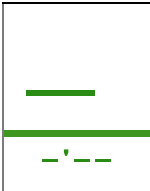

6.1.2. Re-Export

- 6.1.2.1. Duly accomplished application form
- 6.1.2.2. Inspection of wildlife by the DENR-BMB within 3 days
- 6.1.2.3. CITES Import Permit issued by the DENR or other documents supporting the legal possession or acquisition of wildlife
- 6.1.2.4. Local Transport Permit, where applicable
- 6.1.2.5. Bank export declaration, if for commercial purposes
- 6.1.2.6. Phytosanitary (for wild plants) / Veterinary Certificate (for wild animals)
- 6.1.2.7. Order of Payment/Official Receipt

6.2. DENR Personnel are required for this process.

7. TYPICAL PROCESS STEPS

- 7.1. The Records Unit receives the application together with the documentary requirements and forwards the same to the Wildlife Regulation Section (WRS).
- 7.2. The CITES Officer, WRS evaluates the completeness of the documents submitted. If the documents are complete, the Order of Payment is prepared. Otherwise, the application is returned back to the client.
- 7.3. The client pays the required fee and s/he is issued an official receipt (OR). S/he presents the original copy of the OR to the WRS.
- 7.4. The CITES Officer, WRS drafts and submits the CITES Export/Re-Export Permit to the Chief, WRS for review.
- 7.5. The Chief, WRS reviews, affixes initial and endorses the permit to the Chief, Wildlife Resources Division (WRD).
- 7.6. The Chief, WRD reviews, affixes initial and endorses the permit to the Assistant Director's Office.
- 7.7. The Assistant Director reviews, affixes initial and endorses the permit to the Director's Office.

	Department of Environment and Natural Resources PROCESS DEFINITION Processing of CITES Permit Applications for the Export/Re-export of Wildlife, including by- products and derivatives	Document ID	DENR-PD-QMS-008
		Revision No.	0 Issue No. . 3
		Date Issued	Nov 1 2011
		Originating Office	QMS Core Team
		Page No.	3 of 3

- 7.8. The Director approves/signs the CITES Export/Re-export Permit and forward signed permit to the Records Unit.
- 7.9. The Records Unit affix a permit number, the CITES and agency seals, and the dates of issuance and expiry prior to release to the client.

8. PROCESS OUTPUTS

The results of the process are:

- 8.1. Products:
 - 8.1.1. CITES Export Permit
 - 8.1.2. CITES Re-export Permit
- 8.2. Documented information:
 - 8.2.1. Duly accomplished application form
 - 8.2.2. Inspection of wildlife by the DENR within 3 days
 - 8.2.3. Documents supporting the legal possession or acquisition of wildlife (Export)
 - 8.2.4. CITES Import Permit issued by the DENR or other documents supporting the legal possession or acquisition of wildlife (Re-export)
 - 8.2.5. Bank export declaration, if for commercial purposes
 - 8.2.6. Local Transport Permit, where applicable;
 - 8.2.7. Phytosanitary (for wild plants) / Veterinary Certificate (for wild animals)
 - 8.2.8. Order of Payment/Official Receipt

<div style="font-size: 2em; font-weight: bold; color: blue;">4</div>	Department of Environment and Natural Resources PROCESS DEFINITION Issuance of Free Patents over Residential Lands	Document ID	DENR-PD-QMS-009
		Revision No.	01 Issue - ID
		Date Issued	April 1, 2016
		Originating Office	QMS Core Team
		Page No.	1 of 4

1. SUMMARY

This document defines the process of issuance of Residential Free Patents (Republic Act 10023; DENR Administrative Order 2010-12). This process is illustrated in the process flow map included in the DENR Quality Management Manual.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

The Residential Free Patent is a legitimate proof of ownership of residential public land in the Philippines granted by the government. This process covers applications for free patents pertaining to untitled public alienable and disposable lands which have been zoned as residential. It shall also cover zoned residential areas in proclaimed townsites reservations (Republic Act 10023; DENR Administrative Order 2010-12).

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps required in the issuance of free patents in untitled public alienable and disposable lands which have been zoned as residential.
- 4.2. The Residential Free Patents shall be issued within the prescribed period as defined in the DENR Citizen's Charter No. 9.
- 4.3. The result of this process shall be made part of the documented information and shall be subject of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

- 5.1. CENRO
- 5.2. PENRO

6. PROCESS INPUTS

- 6.1. The documents required for this process are:
 - 6.1.1. Any document showing identity of land (e.g. lot number, survey card, tax declaration, Deed of Sale, etc.)
 - 6.1.2. Certified true copy of Approved Survey Plan, Technical Description or Cadastral Map
 - 6.1.3. Tax declaration, proof of payment of taxes

		Originating Office	QMS Core Team
		Page No.	2 of 4

- 6.1.4. Certification from the Barangay that he is a resident in the area
- 6.1.5. Duly accomplished Residential Free Patent Application and prescribed forms, with the following attached documents:
 - 6.1.5.1. Proof of Claims/Ownership of Land
 - 6.1.5.2. Certified True Copy of Approved Survey Plan, Technical Description (TD) or Cadastral Map
 - 6.1.5.3. Copy of technical description
 - 6.1.5.4. Affidavit of two (2) disinterested persons residing in the barangay of the city or municipality where the land is located attesting that the applicant thereof has either by himself or through his predecessors-in interest, actually resided on and continuously possessed and occupied under a bonafide claim of acquisition of ownership, the subject land for at least ten (10) years
 - 6.1.5.5. Certification from the Regional Trial Court concerned that there is no pending land registration case involving the parcel of land being applied for
 - 6.1.5.6. Certification from LGU that the area applied for is zoned as Residential
 - 6.1.5.7. Certification from CENRO that the land is within A and D
 - 6.1.5.8. Affidavit stating that the land is the only land applied for by the applicant
 - 6.1.5.9. Government issued ID of applicant and representative (Postal, Voter's, GSIS, LTO, PhilHealth, Senior Citizen's, SSS, etc.)
 - 6.1.5.10. Latest photograph of land and house (preferably geo-tagged)
 - 6.1.5.11. Latest photograph of the applicant and representative
- 6.1.6. Order of Payment/Official Receipt

6.2. The resources required for this process are:

- 6.2.1. DENR Personnel
- 6.2.2. Travelling Expenses
- 6.2.3. Equipment

6.3. The special training for the personnel required for this process are:

- 6.3.1. Land Disposition and Investigation
- 6.3.2. Equipment operation

7. PROCESS STEPS

7.1. CENRO

- 7.1.1. The Records Officer, Land Records verifies the status of the land whether titled or not and/or claimed by others.

<div style="text-align: center; font-size: 2em; font-weight: bold;">4</div>	<div style="text-align: center;">Department of Environment and Natural Resources</div> <div style="text-align: center;">PROCESS DEFINITION</div> <div style="text-align: center;">Issuance of Free Patents over Residential Lands</div>	Document ID	DENR-PD-QMS-009
		Revision No.	0 Issue No. 103
		Date Issued	099 1 1 2011
		Originating Office	QMScoreTe
		Page No.	3 of 4

- 7.1.2. The Geodetic Engineer, Survey and Mapping Section determines the Land Classification Status, whether it is within alienable and disposable (A&D) or not.
- 7.1.3. The CENRO, or implementing PENRO, signs and approves the Certification of Status of Land.
- 7.1.4. The Land Investigator/DPLV/Land Management Officer provides the client with:
 - 7.1.4.1. Checklist of Requirements;
 - 7.1.4.2. Free Patent Application Form and other prescribed forms; and
 - 7.1.4.3. Advice on the procedures.
- 7.1.5. The Records Officer/Land Investigator/DPLI receives the application with complete supporting documents. S/he records, indexes and assigns control number to the application.
- 7.1.6. The Land Investigator/DPLI computes the fees and prepares the Order of Payment. The client pays the corresponding fee and documentary stamp and is issued an official receipt.
- 7.1.7. Once payment is confirmed, the Land Investigator/DPLI conducts investigation on the land being applied for and submits investigation report with geo-tagged photo.
- 7.1.8. The Land Management Officer then prepares notices and letters to the barangay, municipality or city and applicant to be signed by the CENRO, or implementing PENRO. The notices are posted before the patent preparation and processing.
- 7.1.9. For the patent preparation and processing:
 - 7.1.9.1. The Administrative Aide prepares the B.L. Form 700-2A.
 - 7.1.9.2. The Staff, Patents and Deeds prepares Order of Approval and Issuance of Patent.
 - 7.1.9.3. The Administrative Aide types the Judicial Forms and Technical Descriptions (TO) and prepare indorsement to the PENRO.
 - 7.1.9.4. The Geodetic Engineer verifies and certifies the correctness of the TD.
 - 7.1.9.5. The Chief, Patents and Deeds conducts preliminary review of the Residential Free Patent Application (RFPA).
- 7.1.10. The CENRO reviews and affixes his initial on the patent and sign the indorsement.
- 7.1.11. The carpeta is transmitted to the PENRO.

7.2. PENRO

- 7.2.1. Once the carpeta is received, the Chief, Patents and Deeds conduct a final review of the free patent documents.

- 7.2.2. The Chief, Technical Services reviews and affixes his initial on the free patent documents. The documents are then endorsed to the PENRO.
- 7.2.3. The PENRO signs the Order of Issuance of Residential Free Patent.
- 7.2.4. A Patent Number/index is assigned before transmitting the documents to the Register of Deeds.

8. PROCESS OUTPUTS

The results of the process are:

- 8.1. Product: Residential Free Patent
- 8.2. Documented information:
 - 8.2.1. Inspection Report
 - 8.2.2. Certificate from CENRO that the land is within A and D
 - 8.2.3. Certificate from the Regional Trial Court concerned that there is no pending land registration case involving the parcel being applied for
 - 8.2.4. Certificate from LGU that the area applied for is zoned as Residential
 - 8.2.5. Affidavit stating that the land is the only land applied for by the applicant
 - 8.2.6. Copy of Tax Declaration
 - 8.2.7. Notice of Posting and Letter to Barangay, municipality or city and applicants
 - 8.2.8. Survey Plans and TDs
 - 8.2.9. Judicial forms
 - 8.2.10. Order of Issuance of Residential Free Patent
 - 8.2.11. Transmittal letter to the Register of Deeds

1. SUMMARY

This document defines the process of issuance of Tree Cutting Permit. This process is illustrated in the process flow map included in the DENR Quality Management Manual.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00,2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

Tree Cutting Permit is a document issued by the Department prior to the utilization/extraction of standing trees. This document defines the process of issuance of Tree Cutting Permit.

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps required for the issuance of tree cutting permit in public places, private lands, infrastructure projects, and government projects.
- 4.2. The Tree Cutting Permit shall be issued within the prescribed period as defined in the DENR Citizen's Charter No. 10.
- 4.3. The result of this process shall be made part of the documented information and shall be subject of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

- 5.1. DENR Central Office
- 5.2. DENR Regional Office
- 5.3. Provincial Environment and Natural Resources Office (PENRO)
- 5.4. Community Environment and Natural Resources Office (CENRO)
- 5.5. Forest Management Bureau (FMB)

6. PROCESS INPUTS

- 6.1. The documents required for this process are:
 - 6.1.1. Letter of application
 - 6.1.2. LGU Endorsement/ Certification of No Objection (Municipality and Barangay)
 - 6.1.3. Copy of Land Title (OCT/TCT) for Private Property
 - 6.1.4. Photographs of trees to be removed
 - 6.1.5. Site Development Plan and ECC for big projects
 - 6.1.6. If inventory is undertaken by the customer:

<div style="text-align: center;">  <h1 style="margin: 0;">4</h1> </div>	Department of Environment and Natural Resources PROCESS DEFINITION Tree Cutting Permit	Document LD	DENR-PD-QMS-010

6.1.6.1. Tree Charting Map

6.1.6.2. Timber Inventory/ Inspection Report with Tally Sheet/Stand and Stock Table and pictures

6.2. The resources required for this process are:

6.2.1. DENR Personnel

6.2.2. Travelling Expenses

6.2.3. Equipment

6.3. The special training for the personnel required for this process are:

6.3.1. Timber Inventory

6.3.2. Equipment operation

7. PROCESS STEPS

7.1. CENRO

7.1.1. The Receiving Clerk receives the application letter of the client with corresponding documentary requirements to the CENRO concerned.

7.1.2. The Forest Specialist I or Chief Utilization Unit reviews the completeness of the documentary requirements submitted. If complete, the application is endorsed to the CENRO.

7.1.3. The CENRO issues Order/ Instruction to conduct inventory/inspection and forward to Chief, FMS.

7.1.4. The Chief, FMS assigns an Inspecting Officer to conduct inventory/ inspection.

7.1.5. The CENRO Cashier prepares the Order of Payment to be signed by the CENRO. Once the Order of Payment is signed, the client pays the Inventory Fee for planted and naturally growing trees. No payment is required for less than 20 trees or if inventory will be conducted by the customer.

7.1.6. After client paid the fee, the Inspection Personnel, composed of 3-5 individuals, conducts 100% inventory or inspection of the area and prepare Inspection Report with geo-tagged photos to be submitted to Chief, FMS, except those with Certificate of Tree Plantation Ownership (CTPO).

7.1.7. The Chief, FMS, reviews the Inspection Report and submit recommendation to CENRO.

7.1.8. The CENRO reviews and approves the Inspection Report and signs endorsement to PENRO.

7.2. PENRO

7.2.1. The documents received in the PENRO are first reviewed and evaluated by the Chief, FMS. She endorses this to the PENRO.

7.2.2. The PENRO reviews the CENRO recommendation. If s/he approves, the endorsement to RD is signed.

7.3. Regional Office

<div style="text-align: center; font-size: 2em; font-weight: bold;">4</div> <div style="text-align: center; font-size: 0.8em;"> <div style="width: 100px; height: 10px; background-color: #008000; margin: 2px 0;"></div> <div style="width: 100px; height: 10px; background-color: #008000; margin: 2px 0;"></div> <div style="width: 100px; height: 10px; background-color: #008000; margin: 2px 0;"></div> </div>	Department of Environment and Natural Resources PROCESS DEFINITION Tree Cutting Permit	Document ID	DENR-PD-QM.S.-010
		Revision No.	0 Issue No. j
		Date Issued	DEC 16 2016
		Originating Office	QMS Core Team
		Page No.	3 of 5

- 7.3.1. The Receiving Clerk receives the documents and forward to the Assistant Regional Director (ARD) for Technical Services.
- 7.3.2. The ARD for Technical Services forwards the application documents to the Chief, FRCD for review and evaluation.
- 7.3.3. The Chief, FRCD reviews the documents and prepares the endorsement to ARD for Technical Services.
- 7.3.4. The ARD for Technical Services reviews and signs endorsement to the Regional Director.
- 7.3.5. The Regional Director reviews and approves the endorsement to the Forest Management Bureau (FMB) indicating that copy to be furnished to the USEC for Field Operations.
- 7.3.6. The Records Section, Regional Office releases the endorsement to the Office of the Secretary (OSEC) through the Undersecretary (USEC) for Field Operations copy furnished to FMB.
- 7.4. Central Office
 - 7.4.1. The Records Unit, Central Office receives and forwards the documents to the OSEC. The Receiving Clerk of OSEC then receives and forwards the documents to USEC/ASEC Field Operations, who will forward the documents to FMB.
- 7.5. Forest Management Bureau
 - 7.5.1. The Records Unit, FMB receives and forwards the document to the Office of the Director, FMB. From the OD, FMB, the application is received and forwarded through channels to the FRMD for action.
 - 7.5.2. The FRMD Division Chief reviews and assigns the application to the Section Chief, who then reviews and assigns the application to an Action Man/Forest Management Specialist.
 - 7.5.3. The Action Man/Forest Management Specialist reviews, evaluates, conducts data analysis. She also prepares the Memorandum Endorsement to USEC for Field Operations with draft clearance to RD to issue tree cutting permit and submits the same to his/her Section Chief.
 - 7.5.4. The Section Chief reviews and forwards the documents to the Chief, FRMD.
 - 7.5.5. The Chief, FRMD reviews and forwards the documents to the Assistant Director, FMB.
 - 7.5.6. The Assistant Director, FMB reviews and forwards the documents to the Director, FMB.
 - 7.5.7. The Director, FMB reviews and signs the Memorandum Endorsement to USEC for Field Operations.
- 7.6. Central Office
 - 7.6.1. The Office of the ASEC for Field Operations receives the documents.
 - 7.6.2. A technical staff of the ASEC for Field Operations is assigned to review and process the documents. She prepares an initial Memorandum with attached Clearance to Issue Permit to Cut and submits this to the Chief of Staff, ASEC for Field Operations.

<div>4</div> <div>Department of Environment and Natural Resources</div> <div>PROCESS DEFINITION</div> <div>Tree Cutting Permit</div>	Document ID	DENR-PD-QMS-010
	Revision No.	0 Issue No. 3
	Date Issued	DEC 16 2011
	Originating Office	QMS Core Team
	Page No.	4 of 5

- 7.6.3. The Chief of Staff, ASEC for Field Operations reviews and affixes his/her initial in the Memorandum, then forwards the same to the ASEC for Field Operations.
- 7.6.4. The ASEC for Field Operations reviews and affixes his/her initial in the Memorandum, then forwards the same to the USEC for Field Operations.
- 7.6.5. The USEC for Field Operations reviews and approves the Clearance to Issue Permit to Cut, which is endorsed to the OSEC.
- 7.6.6. The technical staff/HEA, OSEC reviews the clearance and endorses the same to the Secretary for decision.
- 7.6.7. The Secretary approves/disapproves clearance to issue permit. The decision is endorsed back to the USEC for Field Operations.
- 7.6.8. If the clearance is approved, the USEC for Field Operations signs the clearance for the RD to issue permit. The clearance is transmitted to the Regional Office through the FMB.
- 7.7. Regional Office
 - 7.7.1. Once received at the regional office, the Clearance to Issue Permit to Cut is forwarded to the RD, who assigns the ARD for Technical Services to prepare the Tree Cutting Permit.
 - 7.7.2. The ARD for Technical Services assigns this task to the Forest Resources Conservation Division (FRCDD). The Tree Cutting Permit is prepared and forwarded to RD for approval.
 - 7.7.3. The RD signs the Tree Cutting Permit. This is released to the client, copy furnished the CENRO concerned.

8. PROCESS OUTPUTS

The results of the process are:

- 8.1. Product: Tree Cutting Permit
- 8.2. Documented information:
 - 8.2.1. Letter of application
 - 8.2.2. LOU Endorsement/ Certification of No Objection (Municipality and Barangay)
 - 8.2.3. Copy of Land Title (OCT/TCT) for Private Property
 - 8.2.4. Photographs of trees to be removed
 - 8.2.5. Site Development Plan and ECC for big projects
 - 8.2.6. If inventory is undertaken by the customer:
 - 8.2.6.1. Tree Charting Map
 - 8.2.6.2. Timber Inventory/ Inspection Report with Tally Sheet/Stand and Stock Table and pictures
 - 8.2.7. Clearance to Issue Permit to Cut

1. SUMMARY

This document defines the process of administrative adjudication of illegal forest products, the conveyances, equipment and tools used in connection therewith, in accordance with PO 705 Section 77 and DAO 97-32.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Emesto D. Adobo, Jr.

3. PROCESS DEFINITION

Administrative adjudication is a process by which DENR issues an affittimative, negative, injunctive or declaratory order with regards to illegal forest products, conveyances, equipment, tools and implements used thereat. The proceeding follows applicable rule of law to ensure justice and equity at all times.

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps in conducting administrative adjudication of illegal forest products, the conveyances, equipment and tools used thereat.
- 4.2. The process should be completed based on standards set by the pertinent laws and regulations.
- 4.3. The result of the process shall be made part of the documented information and shall be subject to management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

The Office of the authorized employee/officer who apprehended, seized and confiscated the illegal forest product shall be the process owner.

6. PROCESS INPUTS

- 6.1. When the following are not shown:
 - 6.1.1. Complete required document; and
 - 6.1.2. Genuine authorizations or permits and/or supporting documentation that are validity.
- 6.2. The DENR Monitoring Stations or Law Enforcement Agency (LEA) check points in the performance of their duties will usually apprehend or provide information to

Apprehending Officer (AO) concerned regarding violations of Section 77 of P.D.705.

7. PROCESS STEPS

7.1. Determination of Probable Cause. The AO will detetmine whether there is probable cause by examining the documents of the alleged offender. Any timber is considered a product of illegal logging if it was removed, cut, collected, processed and/or transported:

- 7.1.1. without the requisite authorization or permit; or
- 7.1.2. with incomplete required supporting documents;
- 7.1.3. with genuine authorizations or permits and/or supporting documentation that have an expired validity, have been cancelled or that contain forged entries; or
- 7.1.4. with spurious (fake) authorizations, permits and/or supporting documentation. In implementing these Rules, original documents shall be required at all times to actually accompany any forest products being moved or transported to any place and for any purpose. Whenever the requisite authorization and/or supporting documentation are required to but do not actually accompany the forest products, such absence constitutes a violation covered by these Rules.

7.1.4.1. It is presumed that the alleged offender intended to defraud the Government if:

- 7.1.4.1.1. In case the quantity or volume of a shipment or stock of forest products exceeds what is authorized, documented, manifested or declared: (i) by five percent (5%) or more, in case of timber, and/or (ii) by two percent (2%) or more, in case of lumber; and/or
- 7.1.4.1.2. Upon discovery of a misdeclaration on the quantity and species being verified pursuant hereto.

Probable Cause

With Probable Cause	Without Probable Cause
Based on the examination of the documents pertaining to the forest products the AO found that there is no probable cause to apprehend.	Based on the examination of the documents pertaining to the forest products the AO found that there is probable cause to apprehend. AO shall personall y examine the alleged offender and any witnesses appeanng before him in order to satisfy himself that

	an offense has been committed, the evidence at hand indicates the offender is probably guilty thereof, and that the items delivered to him are the proceeds of the violation.
AO will conduct an ocular inspection and immediate release of the forest products by stamping the documents as inspected, affixing the date, fact of inspection and release thereof.	The AO will proceed to apprehend the forest products.

- 7.2. Apprehension is undertaken by forest office, deputies, members of LEA and private citizen.
- 7.2. L For Abandoned Illegal Forest Products, the AO shall:
 - 7.2.1.1. Photograph and document the items and the scene of the crime;
 - 7.2.1.2. Identify, date, caption, and write his full name and affix his signature at the back of each photo;
 - 7.2.1.3. Post a Notice of Apprehension on site. A notice of the apprehension shall be left by the AO on-site, posted or tacked into the nearest tree, wall or other similar permanent structure. In this connection, the notice shall contain the date, time and place of the apprehension, full printed name, designation and signature of the apprehending officer, a complete, itemized list of the item(s) apprehended, a summary statement of the violation(s) cited, and of the full printed name and office address of the seizure officer to whom said items will be submitted as required by these Rules; and
 - 7.2.1.4. Prepare an Apprehension Report (Form No.1) to be submitted to the nearest Seizure Officer.
- 7.2.2. Apprehension of Illegal Forest Products, Conveyances, Equipment, Tools and Implements.
 - 7.2.2.1. Apprehension Receipt (Form No.2 AR) shall be prepared and given to the offender with the following: precise nature of the offense; time, date and place of issuance of AR; and full names in print and signature of Administrative Officer or individual and the offenders. A Provisional Receipt in written form shall be issued if more time is required to complete the counting, measurement, description, scaling, weighing and/or value estimation and must contain the date, time and place of resumption of such activities.

		Page No.	4 of 6

7.2.2.2. **Delivery of Apprehended Items (Sec. 6.1).** The Apprehending officer shall deliver to the nearest Seizure Officer (SO) the apprehended items. The following may act as SO:

7.2.2.2.1. RD,ARD

7.2.2.2.2. PENRO, SFMS, SEM

7.2.2.2.3. CENRO, LMO III, FMO III

7.2.2.2.4. Other officials designated by the Secretary

7.2.2.3. Seizure Receipt must be issued, which shall contain the date, place, time, name of AO or individual, list of items and if delivery cannot be effected, temporary safekeeping at the nearest government office, otherwise, AO or individual must keep it until delivery to SO.

7.3. **Verification of Existence of a Prima Facie Case.** SO shall verify the existence of prima facie case by personally examining the AO and their witnesses.

7.3.1. If the SO found that there is no Prima Facie Case, he/she shall issue a Notice of Issuance of Order for Release (Form No.4) for the immediate release of the confiscated forest products.

7.3.2. If there exists a prima facie case, the SO shall issue a Seizure Order (Form No.3) and a Notice of Issuance of Order for Confiscation (Form No.4)

7.4. **Adjudication Proceedings or Hearing Proper**

7.4.1. Issuance and Posting of Notice of Hearing -Notice of Hearing shall BE issued to the parties concerned and be posted three (3) times a week for three (3) consecutive weeks in three (3) public places.

7.4.2. The Seizure Officer shall act as the Hearing Officer. The Confiscation hearing shall be recorded and of summary nature, during which all interested parties shall be heard by themselves and/or through counsel of choice. Ample opportunity to obtain the services of counsel shall, in all cases, be provided.

7.4.3. Applicable Rules of Court shall have suppletory application in these proceedings to ensure justice and equity at all times

7.4.4. In lieu of adducing testimonial evidence, any Party may elect to submit a Memorandum, attaching Affidavits and any other supporting documents thereto, with a request that the issues be decided on the basis thereof.

7.4.5. *Temporary Release of Conveyance* - When a conveyance is apprehended by virtue hereof, and any time thereafter pending final disposition of the administrative case, and should available evidence establish to the satisfaction of the Hearing Officer that the conveyance may be used for lawful purposes, such as, but not limited to: personal mode of transportation; commercial passenger transport; cargo hauling; or other similar legal use, temporary release thereof to the owner or claimant or other interested Party may be applied for, and release thereof to the Applicant pendente lite may be granted

by the Hearing Officer upon compliance with the requirements stated in DA097-32.

- 7.5. **DECISION**-The Regional Director, upon recommendation of the Hearing Officer, will render a decision based on substantial evidence and shall become final and executory upon the lapse of fifteen (15) regular business days unless a Motion for Reconsideration is filed.
- 7.6. **MOTION FOR RECONSIDERATION** -A party aggrieved by the decision may file only one (1) Motion for Reconsideration within a non-extendible period of fifteen (15) calendar days from receipt of the Decision, containing a concise statement of the grounds relied upon for the purpose. The Hearing Officer shall issue a ruling on such Motion within fifteen (15) days from receipt thereof, stating the grounds therefore. Unless a Notice of Appeal is filed by a Party with the Hearing Officer within a non-extendible period of fifteen (15) calendar days from receipt of a Notice of Appeal, the Hearing Officer shall transmit the complete records of the case to the Office of the Secretary for appropriate action.
- 7.7. **APPEAL TO THE DENR SECRETARY** -Within a non-extendible period of fifteen (15) calendar days from receipt of the ruling upon a Motion for Reconsideration, a Party, after paying the corresponding Appeal Fee, may file an Appeal with the Office of the Secretary, which shall contain a concise statement of all the issues of fact and law raised on appeal. Upon receipt thereof, the Appeal shall be forwarded to the Legal Service Undersecretary for Legal Affairs, who shall submit his recommendations to the Secretary within a period of fifteen (15) regular working days.
- 7.8. **DECISION OF THE SECRETARY** The Secretary decides upon recommendation of USEC for Legal. The aggrieved party may file a Motion for Reconsideration or appeal the case to the Office of the President within 15 days upon receipt of the
- 7.9. **EXECUTIVE DECISION** -When a Decision becomes final and executory upon the lapse of the reglamentary periods herein prescribed, the Undersecretary for Legal Affairs shall, *motu proprio* or upon Motion by any Party, issue a Certification to that effect for submission to the Secretary. The Certification shall cite the item(s) confiscated in accordance herewith (if any), together with a recommendation for execution of the Decision.
- 7.10. **TERMINATION OF CASE** — Upon approval by the Secretary issued pursuant to the preceding paragraph, confiscated items shall become permanent property of the Government and entered into the books as such and disposed of in accordance with

	PROCESS DEFINITION Formulation, Review/Evaluation and Funding/Approval of Project Concept/Proposal		Revision No.	0 Issue No. n
			Date Issued	SU 10 /010
			Originating Office	QMS Core Team
			Page no.	I of 4

1. SUMMARY

This process defines the formulation, review/evaluation, and acceptance of project concept/proposal and sourcing out of funds, packaging and approval of final project proposal.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

The herein process identifies the processes and necessary inputs starting from formulation of project concept/proposal up to approval. It is intended to secure/provide additional funds in implementing priority DENR programs and projects.

4. PROCESS OBJECTIVES AND METRICS

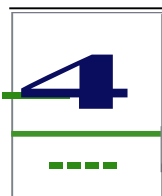

- 4.1. Process objectives for this process are defined in records of management review; see the documented procedure *Management Review*.
- 4.2. In addition, each objective has at least one metric (or K.PI) with which management can measure the effectiveness of the process. These are also defined in records of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

- 5.1. The owner of this process is the Foreign-Assisted and Special Projects Service which also serves as the primary repository of documents prior to full project implementation.
- 5.2. The concerned Bureau serves as the primary repository of project implementation documents.

6. PROCESS INPUTS

- 6.1. The required inputs for this process are:
 - 6.1.1. Technical information needed:
 - 6.1.1.1. Latest edaphic, physiographic, socio-economic and demographic information of the area where the proposed project will be implemented
 - 6.1.1.2. Programs/projects currently being implemented and have been implemented within the proposed project site

	Department of Environment and Natural Resources PROCESS DEFINITION Formulation, Review/Evaluation and Funding!Approval of Project Concept/Proposal	Document LD	DENR-PD-QM -012
		Revision No.	0 \ Issue No. ID
		Date Issued	D:L 1 o 201f
		Originating Office	QMS Core Team
		Page No.	2 of 4

6.1.2. Resources needed:

6.1.2.1. Funds to support operations during the project concept/proposal formulation and review, loan/grant negotiation and pre-implementation.

6.1.2.2. DENR personnel to provide technical, financial and administrative support

6.1.3. Personnel needed with expertise in:

6.1.3.1. Forestry and Community-Based Forestry

6.1.3.2. Protected Area and Biodiversity Management

6.1.3.3. Mines and Geosciences

6.1.3.4. Ecosystems Research and Development

6.1.3.5. Land Management

6.1.3.6. Land Survey and Mapping

6.1.3.7. Environmental Management (solid waste, air quality, water quality, environmental compliance)

6.1.3.8. Remote Sensing

6.1.3.9. Geographic Information Systems

6.1.3.10. Database Management

6.1.4. Special training needed on:

6.1.4.1. Economic Analysis

6.1.4.2. Environmental Impact Analysis

6.1.4.3. Alternative Dispute/Conflict Resolution

6.1.4.4. Social Mobilization

7. PROCESS STEPS

7.1. A Project Concept/Proposal may be submitted by any of the following:

7.1.1. DENR Regional Office/Bureau

7.1.2. Local Government Unit

7.1.3. Academic Institution

7.1.4. Non-Government Organization

7.1.5. Peoples Organization

7.2. The submitted Project Concept/Proposal is reviewed by the Foreign-Assisted and Special Projects Service and identifies applicable funding source after which it proceeds with the following:

7.2.1. For funding under the DENR Special Projects Fund:

	Department of Environment and Natural Resources PROCESS DEFINITION Formulation, Review/Evaluation and Funding/Approval of Project Concept/Proposal	Document ID	DENR-PD-QMS..O12
		Revision No.	0 ! Issue N .- .h
		Date Issued	OEC 1 6 201F
		Originating Office	QMS Core Team
		Page No.	3 of4

- 7.2.1.1. FASPS in cooperation with bureaus and the Planning and Policy Studies Office reviews the proposal whether or not the same is within the priority concerns and areas of the DENR,
- 7.2.1.2. Require the proponent Regional Office/Bureau to prepare a detailed project proposal in accordance with appropriate DENR guidelines
- 7.2.1.3. Proponent submits the detailed project proposal
- 7.2.1.4. FASPS schedules presentation by the proponent of the project proposal to the FASPS Project Proposals Review Team which directs, if necessary, the proponent to enhance/revise the proposal
- 7.2.1.5. FASPS endorses the project proposal to the DENR Secretary.
- 7.2.1.6. Once approved by the DENR Secretary, FASPS informs the DENR Finance Management Service which allocates/releases needed funds in accordance with project schedules.
- 7.2.1.7. Project proponent starts project implementation.
- 7.2.2. For funding by bilateral/multi-lateral agencies under Official Development Assistance (Loan, Grant or Loan/Grant Combination)
 - 7.2.2.1. FASPS reviews the proposal whether or not the same is within the priority concerns and areas of the DENR, consistent with the Philippine Development Plan/Project Investment Plan and included in the Government of the Philippines/Donor Country Programming.
 - 7.2.2.2. FASPS together with NEDA and Donor Agency undertakes appraisal that includes the following:
 - 7.2.2.2.1. Fact-Finding Mission
 - 7.2.2.2.2. Feasibility Study
 - 7.2.2.2.3. Review by NEDA of the Feasibility Study
 - 7.2.2.2.4. Presentation to the NEDA ICC Technical Board
 - 7.2.2.2.5. Presentation to the NEDA ICC Cabinet Committee
 - 7.2.2.2.6. NEDA Board Confirmation
 - 7.2.2.3. Loan/Grant Negotiation which includes the following:
 - 7.2.2.3.1. Formulation of Loan/Grant Financing Agreement
 - 7.2.2.3.2. Issuance of full Power of Authority to the Office of the President thru the Department of Finance
 - 7.2.2.3.3. Presentation to the Monetary Board
 - 7.2.2.3.4. Seeking of opinion from the Department of Justice
 - 7.2.2.3.5. Actual Loan/Grant Negotiation to include formulation of the Project Operations Manual, Project Implementation Plan and Memorandum of Agreement between GOP and Donor Agency
 - 7.2.2.3.6. Loan/Grant Agreement signing
 - 7.2.2.4. Pre-Implementation that includes the following

- 7.2.2.4.1. Compliance to Loan/Grant Conditions
- 7.2.2.4.2. Request for Special Budget with the DBM
- 7.2.2.4.3. Project Mobilization

8. PROCESS OUTPUTS

8.1. The outputs of the process are as follows:

- 8.1.1. Product produced:
 - 8.1.1.1. Approved Project Proposal ready for full implementation
- 8.1.2. Documents or technical information produced:
 - 8.1.2.1. Latest edaphic, physiographic, socio-economic and demographic information of the area
 - 8.1.2.2. Feasibility Study
 - 8.1.2.3. Loan/Grant Agreement
 - 8.1.2.4. Memorandum of Agreement with the funding source
 - 8.1.2.5. Memorandum of Agreement with partner-stakeholders
- 8.1.3. Records produced:
 - 8.1.3.1. Project Administration Manual
 - 8.1.3.2. Project Operations Plan
 - 8.1.3.3. Project Work and Financial Plan
- 8.1.4. Services produced:
 - 8.1.4.1. Enhanced project implementation techniques
 - 8.1.4.2. Enhanced delivery of ENR-related services
 - 8.1.4.3. Enhanced monitoring and evaluation system
 - 8.1.4.4. Enhanced capacity of concerned DENR personnel

Prepared by:

<div>4</div> <div>  </div>	<div>Department of Environment and Natural Resources</div> <div> PROCESS DEFINITION Issuance of Environmental Compliance Certificate for Environmentally Critical Projects </div>	Document ID	DENR-PD-QMS-013
		Revision No.	0 Issue No. 101
		Date Issued	DE 1 D 7PH'
		Originating Office	QMS Core Team
		Page No.	1 of 4

1. SUMMARY

This document defines the process of issuance of Environmental Compliance Certificate (ECC) for Environmentally Critical Projects (ECP). This process is illustrated in the process flow map included in the DENR Quality Management Manual.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
Rev. 01, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

The Environmental Impact Assessment (EIA) is primarily presented in the context of a requirement to integrate environmental concerns in the planning process of projects at the feasibility stage. Through the EIA Process, adverse environmental impacts of proposed actions are considerably reduced through a reiterative review process of project siting, design and other alternatives, and the subsequent formulation of environmental management and monitoring plans.

The Environmental Compliance Certificate (ECC) is the document issued by the DENR certifying that based on the representations of the proponent and the preparers, as reviewed and validated by the Environmental Impact Assessment Review Committee (EIARC), the proposed project or undertaking will not cause a significant negative environmental impact. This document defines the process of issuance of Environmental Compliance Certificate (ECC) for Environmentally Critical Projects (ECP).

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps required for the issuance of ECC for ECP.
- 4.2. The ECC shall be issued within the prescribed timeframe defined in the process flow map included in the DENR Quality Management Manual.
- 4.3. The result of this process shall be made part of the documented information and shall be subject of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

The Environmental Management Bureau (EMB) is the responsible office for this process.

<div style="text-align: center;">  </div>	Department of Environment and Natural Resources PROCESS DEFINITION Issuance of Environmental Compliance Certificate for Environmentally Critical Projects	Document ID	DENR-PD-QMS-013
		Revision No.	0 Issue N.º, N.º
		Date Issued	DEC 16 2016
		Originating Office	QMS Core Team
		Page No.	2 of 4

6. PROCESS INPUTS

6.1. The documents required for this process are:

6.1.1. Technical information needed:

- 6.1.1.1. Environmental Impact Statement (EIS) or Environmental Performance Report and Management Plan (EPRMP)
- 6.1.1.2. Project Information and other relevant documents
- 6.1.1.3. Agreed Technical Scoping Checklist

6.1.2. Resources needed:

- 6.1.2.1. Budget
- 6.1.2.2. Vehicles
- 6.1.2.3. Equipment

6.1.3. Personnel needed:

- 6.1.3.1. Environmental Impact Assessment Management Division
- 6.1.3.2. REVCOM

6.1.4. Capability Training for the personnel identified in 6.1.3 is needed.

7. PROCESS STEPS

- 7.1. The Technical Scoping Meeting is facilitated by convening the review team/EIARC within 7 days. The Project Information shall be inputted in the EIA-IS. Also, a copy of relevant documents is provided to the EIARC at least 3 days before the meeting. The output of the said meeting will be the Agreed Technical Scoping Checklist (duly signed by the EIARC and EMB section or division chief). Public consultation is required, unless otherwise specified.
- 7.2. If the Procedural Screening of EIS or EPRMP is accepted, the payment of EIA Review Support Fund (ERSF) is made to the Fund Manager, based on EMB prepared ECC Application review Work and Financial Plan (WFP). If not accepted, lacking supporting documents/application requirements is completed.
- 7.3. The Order of Payment is issued by the EIAMD upon the submission by the proponent/preparer of the copy of MOA for the ERSF and OR and Procedural screening Results Form indicating acceptance of Draft EIS or EPRMP.
- 7.4. After the payment is made, the ECC Application is officially accepted by the EIAMD upon presentation of the transmittal letter from proponent indicating the filing of the ECC application for the specific project, required number of EIS or EPRMP copies including one (1) e-copy and proof of distribution/posting of the Notice of Public Consultation or Hearing.

		Originating Office	QMS Core Team

Page No.

3 of 4

- 7.5. A substantive review of the EIS or EPRMP is done. The ECC Application is encoded in the EIS-IS. The Technical Review Team/EIARC is convened, and is given a copy of the EIS or EPRMP and notice of EIARC Meeting 5 days before the meeting.
- 7.6. The EIS or EPRMP/ECC Application is reviewed by the EIARC. After the review, Technical/EIARC meeting/s is conducted. In between the process, Public Consultation or Hearing (if required) and Site Validation are facilitated by the EMB. During this step, the Bureau ensures that all stakeholders are invited. Also, the Project Proponent makes the necessary logistical arrangements in coordination with the EMB Regional or EMB/DENR Field Office.
- 7.7. The Minutes of the Technical Meeting is prepared and the letter requests for AI transmitted to the Proponent/Preparer.
- 7.8. The submitted AI and Public Consultation Report is distributed and reviewed, if required.
- 7.9. Final EIARC Meeting is conducted.
- 7.10. The EIARC Report is submitted to the EIAMD Chief and Complete Staff Work is done by the EIAMD.
- 7.11. The review and decision (approval/denial) on the ECC application is made by the EMB Director/DENR Secretary, for signature of the Sworn Statement of Accountability to the ECC Conditions.
- 7.12. The signed ECC is distributed to relevant government agencies/LGU.

8. PROCESS OUTPUTS

The results of the process are:

- 8.1. Product: Decision Document, may be in the form of ECC, Certificate of Non-Coverage or Denial Letter
- 8.2. Documents or technical information produced:
 - 8.2.1. Main Parts and Salient Features of the ECC: The ECC is composed of three (3) parts with the following features:
 - 8.2.1.1. First Part: The certificate of environmental compliance commitment, which defines the scope and limits of the project, in terms of capacity, area, technology or process. Both endorsing and issuing authorities sign-off this portion of the ECC. This part of the ECC comes with a covering letter transmitting the ECC to the Proponent, signed off by the deciding and signing authority (either the DENR Secretary, EMB Director or EMB Regional Director);
 - 8.2.1.2. Second Part: Annex A of the ECC which lists the conditions within the mandate of the EMB. Non-compliance to any of the conditions may be imposed a corresponding penalty. The Proponent commits to fully

comply to the ECC through its Sworn Statement of Full Responsibility to implement the mitigation measures;

- 8.2.1.3. Third Part: Annex B of the ECC which lists the EIA Review Committee's recommendations to the Proponent, as well as suggestions to the government agencies and LGUs who have mandates over the project so that they can integrate the EIA findings into their decision-making process. The EIARC Chair, the EMB Chief and the EMB Director/Regional Director sign this portion of the ECC. This last part of the ECC is formally transmitted by the DENR-EMB to the concerned GAs and LGUs.

8.3. Records produced:

- 8.3.1. Environmental Compliance Certificate (ECC) for ECP
- 8.3.2. Environmental Impact Statement (EIS) or Environmental Performance Report and Management Plan (EPRMP)

Department of Environment and Natural Resources

PROCESS DEFINITION

Process Flow: Issuance of Environmental Compliance Certificate for Environmentally Critical Projects

Document ID	DENR-PD-QMS-013
Revision No.	0 Issue No. 103
Date Issued	Dec 16, 2016
Originating Office	QMS Core Team
Page No.	1 of 1

<div style="font-size: 48pt; font-weight: bold; color: blue;">4</div>	<div style="text-align: center;"> Department of Environment and Natural Resources PROCESS DEFINITION Issuance of Wildlife Gratuitous Permit </div>	Document ID	DENR-PD-QM S-014
		Revision No.	0 J Issue No. 103
		Date Issued	OCC 16 2111(
		Originating Office	QMS Core Team
		Page No.	1 of 2

1. SUMMARY

This document defines the process of issuance of Wildlife Gratuitous Permit (WOP). This process is illustrated in the process flow map included in the DENR Quality Management Manual.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

The Wildlife Gratuitous Permit refers to the privilege given to an individual, academe, research institution or organization to capture/harvest and transport wildlife species from the natural habitat for scientific and other purposes (DENR Administrative Order 2004-55). This process defines the issuance of WGP.

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to standardize the steps required for the issuance of WOP.
- 4.2. The process shall ensure that the WOP shall be issued for its intended purpose for academic and research.
- 4.3. The result of this process shall be made part of the documented information and shall be subject of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

- 5.1. Biodiversity Management Bureau (BMB), for research studies covering multiple locations throughout the country
- 5.2. DENR Regional Office

6. PROCESS INPUTS

- 6.1. The documents required for this process are:
 - 6.1.1. Copy of the research/thesis/ dissertation proposals, or copy of the affidavit of undertaking/ approved MOA
 - 6.1.2. Prior Clearance from the affected (collection site) neighborhood/ communities, i.e. concerned LGUs, recognized head of the IPs in accordance with RA 8371, or Protected Area Management Board
 - 6.1.3. Endorsement letter from the Dean (in case applicant is a student) or in the case of an individual researcher, from a recognized expert or a research institution or conservation organization
 - 6.1.4. Order of Payment

<div style="text-align: center;">  </div>	Department of Environment and Natural Resources PROCESS DEFINITION Issuance of Wildlife Gratuitous Permit	Document ID	DE R-PD-QMS-014
		Revision No.	01 Issued on 10/3
		Date Issued	Utl 1 b ZPlfi
		Originating Office	QMS Core Team
		Page no.	2 of 2

6.2. DENR Personnel are required for *this* process.

7. PROCESS STEPS

- 7.1. The client files the application together with the documentary requirements to the BMB or the Regional Office (RO).
- 7.2. The BMBIRO receives and forwards the documents to the BMB Director/Regional Director (RD).
- 7.3. The application is forwarded to the BMB Wildlife Resources Division (BMB-WRD)/RO Conservation and Development Division (RO-CDD) for evaluation. If the documents submitted are complete, the Order of Payment is prepared. Otherwise, the application is returned back to the client.
- 7.4. The client pays the required fee and she is issued an official receipt (OR).
- 7.5. The BMB-WRD/RO-CDD reviews the application. If acceptable, the Chief affixes his/her signature and endorses the permit to the BMB Assistant Director/RO ARD for Technical Services.
- 7.6. The BMB Assistant Director/RO ARD for Technical Services reviews the application. If acceptable, she affixes his/her signature and endorses the permit to the BMB Director/RD.
- 7.7. The BMB Director/RD approves the permit and forwards the permit to the Records Unit for release to the client.

8. PROCESS OUTPUTS

The results of the process are:

8.1. Product: Wildlife Gratuitous Permit

8.2. Documented information:

- 8.2.1. Copy of the research/thesis/ dissertation proposals, or copy of the affidavit of undertaking approved MOA
- 8.2.2. Prior Clearance from the affected (collection site) neighborhood/ communities, i.e. concerned LGUs, recognized head of the IPs in accordance with RA 8371, or Protected Area Management Board
- 8.2.3. Endorsement letter from the Dean (in case applicant is a student) or in the case of an individual researcher, from a recognized expert or a research institution or conservation organization
- 8.2.4. Order of Payment

1. SUMMARY

This document defines the generation of technology process in detail.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

The generation/development of technology is a process of conducting research with the primary aim of solving specific problems previously identified. It also includes reporting of results obtained (DENR Administrative Order No. 1996-27).

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to develop technology for the implementation of projects to solve specific problems previously identified and measure its impact.
- 4.2. The technology developed shall be measured in terms of its effectiveness.
- 4.3. The result of this process shall be made part of the documented information and shall be presented for management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

The owner of this process is the Ecosystems Research and Development Bureau (ERDB). ERDB is composed of the Main Office and Research Centers. The Main Office has three technical divisions, two service divisions, and administrative and financial management division (the latter being the support division). There are six ERDB Research Centers, which are located in the clustered regions and shall undertake research, development and extension based on their respective areas of excellence.

6. PROCESS INPUTS

- 6.1. For the technical information, the technology to be generated/developed depends on the programs and projects of the technical divisions and the areas of excellence of the research centers. The service divisions provide the technical support to the technical divisions and research centers through laboratory assistance and technical assistance in the form of visits to demonstration areas and facilities.

  	Department of Environment and Natural Resources PROCESS DEFINITION Generation/Development of Environment and Natural Resources Technology	DocumentID	DENR-PD-QMS-015
		Revision No.	0 Issue No. D 3
		Date Issued	DC 16 7n1F
		Originating Office	QMS Core Team
		Page No.	2 of 7

6.2. The resources needed for this process are:

6.2.1. Personnel (regular and additional outsourced technical and administrative staff through contract of services)

6.2.1.1. Technical - for the data gathering activities

6.2.1.2. Administrative - for the maintenance of the laboratory and demonstration areas

6.2.2. Financial resources for the procurement of supplies, materials and equipment.

6.3. Advance training for the regular technical staff to meet the state of the art technologies on environment and natural resources.

7. PROCESS STEPS

The technology generation/development is composed of two phases. Phase I includes programs, activities, and projects (PAPs) conceptualization, proposal preparation and review, while Phase II includes research, development and extension (RDE) implementation. The following are the process steps in generating/developing ENR technology:

7.1. Phase I

7.1.1. With the approval of the ERDB Executive Committee, the ERDB Technical Review Board (ETRB) shall undertake a call for RDE PAPs concept or capsule proposals from among the researchers of the Bureau to facilitate planning and funding forward estimates.

7.1.2. Capsule research proposals shall be submitted to ETRB by at least a Science Research Specialist I or a holder of equivalent technical position within his/her area of concern and specialization.

7.1.3. ETRB shall screen the concept proposals based on the thrusts and priority areas identified in the ENR RDE Framework, the emerging concerns of DENR and the general concept of the proposed PAPs.

7.1.4. When a RDE PAP concept proposal passes the screening and preliminary review of the ETRB, the proponent shall be notified/advised to develop and submit a full-blown proposal.

7.1.5. Relative to the project duration and for budget planning purposes, proposals may be categorized as short term, that is, one (1) year or less; medium term between one (1) year to three (3) years; and long term, more than three (3) years of implementation.

7.1.6. A full-blown RDE PAP proposal must include: the main texts in the required format including extensive review of relevant and recent literature, Conceptual Framework, Logical Framework; Work and Financial Plan (WFP); Travel Plan; and Procurement Plan.

<div style="text-align: center;">  </div>	<div style="text-align: center;"> <p>Department of Environment and Natural Resources</p> <p>PROCESS DEFINITION</p> <p>Generation/Development of Environment and Natural Resources Technology</p> </div>	Document ID	DENR-PD-QMS-015
		Revision No.	01 Issue No. - 03
		Date Issued	DI .. 1 62 1
		Originating Office	QMS Core Team
		Page No.	3 of 7

- 7.1.7. A RDE PAPs proposal intended for external funding support may also be prepared in accordance to requirements of the Bureau and that of the funding agency.
- 7.1.8. Full-blown proposals shall be endorsed by the Division Chief /Center Head to the Office of the Director. The Director then endorses the proposal to the ETRB for its review/evaluation.
- 7.1.9. The ETRB shall review the proposal and may request the involvement of selected Technical Experts based on the nature of the proposal and the necessary expertise for the review. The review for GAD shall involve the use customized GAD Checklist for designing and evaluating RDE projects in the ENR Sector.
- 7.1.10. The ETRB shall evaluate the proposal based on form and substance prescribed in the Guidelines for Evaluating ENR RDE Program and Project Proposals including among others its intended contribution to the Major Final Outputs (MFOs) of DENR.
- 7.1.11. The ETRB may recommend to the Director to invite the proponent(s) for a meeting to discuss/defend the proposal and to clarify and be clarified on certain issues surrounding the proposal.
- 7.1.12. The review process shall be iterative. A proposal that is worth implementing but needs further refinement or revision shall be referred back to the proponent(s) indicating the ETRB's comments and recommendations on the issues and gaps to be addressed.
- 7.1.13. The ETRB Chair shall endorse to the ExeCom proposals that pass the evaluation process for the latter's final review and approval by the Director. The proponents shall be duly notified through the concerned Division Chiefs/Center Heads.
- 7.1.14. Although approved, the corresponding WFPs are deemed tentative or indicative subject to the actual budget approved for the Bureau and the subsequent allocation by the ExeCom among the Bureau's different expenditure objects. Before the onset of the Budget Reprogramming, the Planning Officer shall consolidate all the approved proposals with the corresponding WFPs for prioritization and budget allocation by ERDB Executive Committee. Those intended for external funding shall be endorsed to the funding agency(ies).

7.2. Phase II

Phase II, on the other hand, includes implementation of approved proposals, monitoring and evaluation, periodic preparation and submission of progress reports up until the preparation of tenninal reports (TRs), drafting of related policy instrument(s) and preparation of IEC materials for dissemination or publication out of the completed PAPs.

	Department of Environment and Natural Resources PROCESS DEFINITION Generation/Development of Environment and Natural Resources Technology	Document ID	DENR-PD-QMS-015
		Revision No.	01 Issue No. 11
		Date Issued	Mar 16 2017
		Originating Office	QMS Core Team
		Page No.	4 of 7

- 7.2.1. Proposals that are approved by ERDB Director shall be considered for implementation and shall form part of the RDE PAPs of the Bureau.
- 7.2.2. The Director with the recommendation of the other members of the ExeCom may rule to defer the implementation of PAPs relative to availability of funds, favorable time of implementation, urgency of other PAPs and other justifiable reasons.
- 7.2.3. Subject to the final approved budget of the Bureau and the funds allocated for PAPS, the Program/Project Leader shall revise/finalize the corresponding WFP of the proposal for the approval of ERDB Director.
- 7.2.4. Upon the approval of the revised WFP, the Director shall inform through a memorandum, the Program/Project Leader to proceed with the implementation of the PAP. The Program/Project Leader may organize a project pre-implementation or leveling off workshop involving the concerned Division/Center Head, the Project Team, the MET, the PLLC, representatives from cooperating agency(ies) and principal cooperators to facilitate common understanding of the project, to determine the important areas and modes of collaboration and to identify the specific parameters for monitoring and evaluation.
- 7.2.5. If the project is to be conducted in the field, the Program/Project Leader shall perform coordination activities with concerned agencies, LGUs, and communities in the identified sites to inform them of the project implementation. The program/project is implemented in the field guided by the approved experimental/ sampling design and the WFP.
- 7.2.6. To facilitate for the ready retrieval of records, monitoring of activities and accomplishments, preparation of periodic and terminal reports, preparation of draft policy and preparation of articles for publication, the Project/Program Leader shall prepare and maintain a Project Folder with the corresponding chronicling or Journal of PAPS Activities.
- 7.2.7. The Program/Project Leader shall see to it that the prescribed quarterly/annual physical and statistical reports are submitted on time. The ExeCom may require the Program/Project Leader for other reports updates to be used in Management Conferences, Information, Education and Communication (IEC) activities, technical assistance to stakeholders and for other related purposes. Project Leaders must see to it that GAD concerns are dealt with using the HG DG Checklist for ROE Project Management and Implementation.
- 7.2.8. On-going PAPs are subject to periodic monitoring and evaluation and annual project reviews.
- 7.2.9. An Annual In-House Review (AIHR) of ongoing and recently completed PAPS of the Bureau shall be conducted at ERDB-MO and at the Research Centers. Evaluation shall be in terms of relevance (adherence the principles

<div style="font-size: 2em; font-weight: bold; color: blue; text-align: center;">4</div> <div style="background-color: green; width: 20px; height: 10px; margin: 5px auto;"></div>	Department of Environment and Natural Resources PROCESS DEFINITION Generation/Development of Environment and Natural Resources Technology	Document ID	DENR-PD-QMS-()15
		Revision No.	0 Issue No. 103
		Date Issued	OCT 10 2019
		Originating Office	QMS Core Team
		Page No.	5 of 7

- of ROE Framework), effectivity (delivery of results), and efficiency (outputs relative to inputs including funds and personnel).
- 7.2.10. The ETRB shall review the PAPs and recommends the appropriate measures to be undertaken by Program/Project Leaders.
 - 7.2.11. A PAP may be recommended for extension under meritorious circumstances as may be determined by the ETRB. The Project Leader shall prepare the corresponding annual WFP subject to the nature of deliverables and timetable of remaining activities.
 - 7.2.12. A PAP may be recommended for termination when: a) it has come up with conclusive results ahead of the expected date of completion; and b) when it cannot deliver the expected conclusive results within the planned time frame and budget. For both cases, the Project Leader shall prepare and submit to the Director the necessary Terminal Report (TR) within three (3) months after the termination of the project.
 - 7.2.13. The Leader of medium and long term projects for continuation in the succeeding year shall prepare annual WFPs subject to the overall timetable of activities and periodic accomplishments. Catch up plans for delays and backlogs, should there be any, shall be included.
 - 7.2.14. Before the actual date of completion, the Project Team shall conduct program/ project phase-out activities. They shall ascertain the prompt preparation of reports, inventory of tools and equipment and the conduct of related activities that shall clear the Research Team of any liabilities and/or obligations related to the implementation of the PAPs.
 - 7.2.15. To facilitate the preparation of Terminal Report (TR), all field implementation activities shall be concluded three (3) months before the completion date of the project.
 - 7.2.16. ETRB shall designate reviewers from among the Technical Experts of ERDB and/or may call on external evaluators for the evaluation of terminal reports. Evaluation shall be based on but not limited to, the attainment of objectives, the technical soundness of the report, and its utility to the clientele, policy implications, contribution to science and body of knowledge, implications to ENR Management, IEC, and possibility of further research.
 - 7.2.17. The evaluation shall be iterative. If the need so warrants, the process of reevaluation and revision will be repeated until the ETRB decides for the finalization of the TR and endorsement of the same for approval of the Director.
 - 7.2.18. The Program/Project Leader shall finalize the TR, prepares popular article for publication and whenever applicable, prepares pertinent policy paper and submits the same to the Director.
 - 7.2.19. The Technology Transfer Division (TTD) at ERDB-MO shall evaluate the submitted popular article for publication. Evaluation shall be in accordance

to the requirements of Canopy Lnternational, the popular journal publication ofERDB.

- 7.2.20. A PAP is deemed complete after the finalization of the TR, the popular article and the policy paper and settlement of admjnistrative accountabilities. Project leaders who did not satisfy the requirements in due time may not be given new Program/Project Leadersup assignments

8. PROCESS OUTPUTS

The outputs of the process are as follows:

8.1. Products produced:

- 8.1.1. ENR generated technology refers to information, process, product, or service, wruch when put to use, contributes towards the enhancement of the productivity income and general welfare of an individual or specific groups of individ uals, firms and organizations, including conservation and management of resources.
- 8.1.2. Information – refers to a type of technology that is processed data with significant findings that may indicate valuable socio-economic and technical database for policy formulation and subsequent Research, Development and Extension (RDE) programs/projects/activities.
- 8.1.3. Process or protocol – refers to a type of technology which prescribes schemes to improve production, post production, or procedures. This may involve strategies for efficient utilization, technology transfer, commercialization, and marketing system.
- 8.1.4. Product – refers to a type of technology in the fmm of physical goods. It is normally directed toward a specific market demand.
- 8.1.5. Service – refers to a type of technology that provides the complementary activities/facilities to enhance programs/policies of the government.

- 8.2. The documents or technical inf01mation produced once ENR technology is generated/developed include the terminal reports.

8.3. Records produced in this process include:

- 8.3.1. Program/project/study proposals
- 8.3.2. Memorandum/a containjng the approval of the proposals,
- 8.3.3. Approved work and financial plans with attached approved travel plans, annual procurement plans, and project management procurement plans, approval

- 8.4. Services produced can be in the form of technical assistance depending on the request of the internal and external stakeholders.

1. SUMMARY

This document defines the transfer of ENR technology process in detail.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00,2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCESS DEFINITION

The transfer of ENR technology is the process of moving the results of research from the generator to the end-user (DENR Administrative Order No. 1996-27).

4. PROCESS OBJECTIVES AND METRICS

- 4.1. The process aims to provide support to the implementation of projects through the introduction of technologies that will enhance productivity and benefits to the ecosystem.
- 4.2. The result of this process shall be made part of the documented information and shall be subject of management review.

5. PROCESS OWNERS AND RESPONSIBLE PARTIES

The owner of this process is the Ecosystems Research and Development Bureau (ERDB). ERDB is composed of the Main Office and Research Centers. The Main Office has three technical divisions, two service divisions, and administrative and financial management division (the latter being the support division). There are six ERDB Research Centers, which are located in the clustered regions.

6. PROCESS INPUTS

- 6.1. For the technical information, the ENR generated technologies to be transferred are those that are already identified, classified (whether the technology is an information, process, product or service), characterized, verified, and assessed.
- 6.2. Technical staff, who have the knowledge/expertise to assess the generated ENR generated technologies to help improve access, quality of output, and innovate further and promote wider understanding of ENR technologies, are needed for the ENR generated technology assessment activities.

<div style="font-size: 2em; font-weight: bold; color: blue;">4</div> <div style="width: 20px; height: 10px; background-color: green; margin: 5px 0;"></div> <div style="width: 20px; height: 10px; background-color: green; margin: 5px 0;"></div> <div style="width: 20px; height: 10px; background-color: green; margin: 5px 0;"></div>	<div style="text-align: center;">Department of Environment and Natural Resources</div> <div style="text-align: center;">PROCESS DEFINITION</div> <div style="text-align: center;">Transfer of Environment and Natural Resources (ENR) Technology</div>	Document ID	DE R-PD-00_?016
		Revision	0 Issue No. 103
		Date Issued	081671
		Originating Office	QMS Core Team
		Page No.	2 of 4

7. PROCESS STEPS

The following is the process steps in transferring ENR technology.

- 7.1. Technologies generated in Phase II (Process Definition: Generation/Development of Environment and Natural Resources Technology) shall be extended to clients in Phase III through transfer and extension. This phase includes identification, classification and characterization of candidate technologies generated from RDE PAPs; technology assessment; verification and pilot testing whenever necessary; packaging; dissemination; establishment and promotion of demonstration areas; preparation of draft policy whenever applicable; application of ERDB patent whenever feasible; commercialization and impact assessment.
- 7.2. Subject to the provisions of the Philippine Technology Transfer Act of 2009 (RA 10055), ERDB shall pursue technology transfer and extension works and strategies directed towards the dissemination of research results and transfer of technology to its clientele and mainstreaming them to the operations of DENR.
- 7.3. The Technology Transfer Division (TTD) of the ERDB-MO shall formulate the extension and technology transfer programs of the Bureau. The Research Centers, on the other hand, shall conduct field coordination and direct implementation of technology transfer and extension activities to the clientele.
- 7.4. Technologies generated from RDE PAPs shall be classified by TTD as product, process, information and service and shall be assessed for their feasibility, packaged and transferred according to the needs of the clients.
- 7.5. Technologies classified as products or process shall pass through the review of the Technology Assessment Team (TAT). The TAT shall be an ad hoc body of Technical Experts that shall conduct assessment of specific technologies. The TAT shall assist TTD in determining whether the candidate technology is ready for packaging and dissemination.
- 7.6. Technologies classified as information and service shall undergo similar evaluation process except that instead of the TAT, TTD shall conduct the activity.
- 7.7. TTD and the TAT shall adopt ENR Technology Assessment Protocol (ENR-TAP) established by the ERDB-MO through ERDB-MC No. 01, Series of 2014. The assessment process includes technology screening and feasibility test. TTD may either recommend for packaging of a candidate technology if it passes the feasibility test or for verification of said candidate technology whenever it fails the test.
- 7.8. A candidate technology that shall be recommended by TTD for verification and/or pilot-testing that shall be conducted in a similar manner as that of a regular RDE project.
- 7.9. TTD shall take the lead in the packaging of technology for extension and transfer. A Package of Technology (POT) shall include among others, description of the technical, social, financial/economic, environmental and political dimension of the products, process, or information including pictures,

	Department of Environment and Natural Resources		Document ID	DENR-PD-QMS-016
	PROCESS DEFINITION Transfer of Environment and Natural Resources (ENR) Technology		Revision No.	0 j Issue o. 103
			Date Issued	ORS 161"
			Originating Office	QMS Core Team
			Page No.	3 of 4

illustrations, flowcharts, and other documents that are useful for the appreciation of clients and in the evaluation process.

- 7.10. A packaged technology shall be endorsed by TTD to the ExeCom for their review and for the approval of the Director.
- 7.11. Upon the Secretary's approval of the MC, ERDB shall conduct dissemination activities for the technology.
- 7.12. The Program/Project Leader, out of the approved TR shall submit article(s) for publication at the Silvertip. In such case, the editing and publishing activities shall be coordinated by TTD in cooperation with the Silvertip Editorial Board. Manuscripts should not have been published in another journal prior to the submission.
- 7.13. To fast track the publication process, the ERDB may hire the services of editors in the immediate scientific community with expertise and the track record of publication in journals recognized by international scientific bodies (e.g. Institute for Scientific Information (ISI)). He/she in coordination with the Silvertip Editorial Board shall recommend to ERDB the general acceptability of articles for publication in the Silvertip. The remunerations of hired editors shall be subject to existing rules and regulations of the Government.
- 7.14. ERDB through ETRB shall determine the profitability of its generated technologies and may pursue for commercialization and patenting of such technologies. Application for patent protection shall be subject to the provisions of the RA 10055 or the Philippine Technology Transfer Act of 2009.
- 7.15. The Inventor/Project Leader shall prepare the necessary documents and requirements and attend to matters for the commercialization of the technology. ERDB may request the assistance of the Technology Application and Promotion Institute of the DOST on technology commercialization.
- 7.16. The applicable provisions of RA 8293 on Intellectual Property Rights shall be applied as warranted with regard to disclosure of information and the utilization of the generated DENR technologies and information.

8. PROCESS OUTPUTS

- 8.1. The products produced are ENR generated technology. It refers to information, process, product, or service, which when put to use, contributes towards the enhancement of the productivity income and general welfare of an individual or specific groups of individuals, firms and organizations, including conservation and management of resources.
 - 8.1.1. Information – refers to a type of technology that is processed data with significant findings that may indicate valuable socio-economic and technical database for policy formulation and subsequent Research, Development and Extension (RDE) programs/projects/activities.
 - 8.1.2. Process or protocol – refers to a type of technology which prescribes schemes to improve production, post production, or procedures. This may involve strategies for efficient utilization, technology transfer, commercialization, and marketing system.

	Department of Environment and Natural Resources PROCESS DEFINITION Transfer of Environment and Natural Resources (ENR) Technology	Document ID	DENR-PD-Qr.1_5016
		Revision No.	0 Issue o. 3
		Date Issued	Oct 16 2015
		Originating Office	QMS Core Team
		Page o.	4 of 4

- 8.1.3. Product – refers to a type of technology in the form of physical goods. It is normally directed toward a specific market demand.
- 8.1.4. Service – refers to a type of technology that provides the complementary activities/facilities to enhance programs/policies of the government.
- 8.2. The documents or technical information produced once the generated ENR technology is verified, tested, and assessed can be in the form of manual, brochures, technical bulletin, book, published articles, and science-based draft policies for review of DENR Central Office through Policy Technical Working Group (PTWG).
- 8.3. The records produced included the submission of terminal reports, results of evaluation done by ERDB Technical Review Board (ETRB), and the revised terminal reports based on said review and evaluation by ETRB.
- 8.4. Services produced can be in the form of technical assistance depending on the request of the internal and external stakeholders.

	Department of Environment and Natural Resources PROCEDURE Control of Documented Information	Document rD	DE R-PR-QMS-001
		Revision No.	0 J Issue-No. 03
		Date Issued	VtL 11 b 21-
		Originating Office	QMS Core Team
		Page 0.	1 of 8

1. SUMMARY

- 1.1. This procedure defines the requirements for the creation, review approval, distribution, use and revision of DENR quality management system documented information.
- 1.2. This procedure applies to Level 1-4 (documents) and Level 5 (Records) of the DENR structure of documented information described in the QMS Manual.
- 1.3. "Documents" provide instructions on how to carry activities and tasks and includes guidelines and procedures, policies, circulars, orders, manuals, organization and office plans required to implement the QMS.
- 1.4. "Records" provide evidence of DENR having met/or not met requirements. This provides evidence of conformity and of the effective operation of the quality management system.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. DEFINITION OF TERMS

- 3.1. **Record Officer - Record** Officer of each covered Office. The Chief, Records Management Division will be the Record Officer at the DENR Central Office and will be responsible for managing the central repository of QMS documented information. The Records Officer shall distribute documented information through hard copies and through electronic media according to the approved distribution list and maintain records of inventory, updating, revisions, archiving and /or disposition of documented information.
- 3.2. **Record Controller –** The Record Controller for the QMS shall be the Central Office QMR assisted by the Chief, Records Management Division and the QMS Secretariat. The Records Controller shall be responsible for ensuring the integrity of all documented information and recommend to the QMR actions relating to management of documented information.
- 3.3. **Records Management Division** -A division at the DENR Central Office responsible for safekeeping and management of DENR records, including maintenance and disposition according to the guidelines set by the National Archives of the Philippines Act of 2007.
- 3.4. **Document Action Tracking System (DATS)** - A System implemented at the DENR Offices that keeps track of the documents/records from point of receipt

	Department of Environment and Natural Resources PROCEDURE Control of Documented Information	Document ID	DENR-PR-QMS-001
		Revision No.	0 , Issue No. h
		Date Issued	16 2015
		Originating Office	QMS Core Team
		Page No.	2 of 8

up to its release or final action through the DENR Network. The e-DATS is the enhanced and updated system implementation of DATS.

- 3.5. **Document Number** – a unique number generated by the DATS for a specific document/record which allows the DATS user to search for that document/record in the system and obtain its status and other actions taken related to it.
- 3.6. **Retention Period** – The number of months or years within which the documented information shall be kept and maintained.
- 3.7. **Revision** – Changes to an approved document, whether controlled, or uncontrolled;
- 3.8. **Termination** – the system by which documented information is considered obsolete.

4. PROCEDURES

4.1. Documents

4.1.1. Creation

Documents providing guidelines on implementation of plans, programs, activities, projects and processes are generally created as required to provide uniformity in implementation and as basis for policy and regulation enforcement. Some documents are created by law such as those passed by Congress, through presidential issuances, by responsible implementing agencies, and/or through joint Issuances.

Documents issued by the department are created by the concerned offices/units responsible for planning, monitoring, implementation, and policy formulation. The types of documents, originating Offices/Units and approving authorities are found in the list of documented information.

4.1.2. Approval

Major policies are issued through Department Administrative Orders which contains, among others, the legal basis and rules and regulations governing specific activities. Administrative Orders are legal issuances and requires 15-days after publication in major newspapers before they take effect. Other issuances which serve to provide internal guidance and information such as Memorandum Circular do not require publication. The Secretary approves top-level documents such as DAO, Memorandum Circular and Memorandum Orders, including those jointly issued with other agencies. Other documents can be signed by concerned Undersecretaries or

		Page No.	3 of 5

officials, if it is within the scope of the officials authority to approve based on a system of delegated authority.

The proposal is vetted through the Policy Technical Working Group (PTWG) and by the concerned Directors, USecs and ASecs. The Undersecretary for Policy and Planning thence, recommends this for approval of the Secretary. The approved DAO is published in major newspapers for public scrutiny before its final adoption.

4.1.3. Storage

- 4.1.3.1. The Records Management Division (RMD) shall maintain its records management system in the safekeeping of regular documents of the DENR, including DAO and other issuances in accordance with.
- 4.1.3.2. QMS required documents and those generated for the purpose of the implementation of the QMS shall also be maintained at the Records Management Division which will be stored in separate files, folders and appropriate filing system and electronic storage through the DENR servers.
- 4.1.3.3. Counterpart Records Officers of concerned offices/units will also provide physical storage and e-filing storage for their respective documented information.
- 4.1.3.4. A back up document system will be established at the QMS Secretariat under the supervision of the Central Office QMR. All QMS related documentation in soft copy will be stored and organized in the QMS document system to be housed in the DENR servers and which will be made available during audits and management reviews. The document system will include all the documents created by the QMS.
- 4.1.3.5. A *Document Matrix* will be prepared by the RMD and updated at least once every year indicating current documents and records and those that have been reviewed, updated, amended, superseded, revised and disposed of and declared as obsolete. The QMS document system will also be updated and reconciled with the Document Matrix.

4.1.4. Control and Distribution

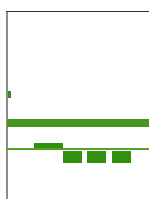

- 4.1.4.1. Approved Documents are forwarded to the Records Management Division where they controlled. DAOs, DMCs, DMOs, SOs and Memos are given DENR Numbers. All documents required by the QMS will be controlled and will be assigned an ID. These IDs will be noted in the description of the document in storage to facilitate retrieval.

		Revision No.	0 J Issue No. 103
		Date Issued	DtC 16 201
		Originating Office	QMS Core Team
		Page No.	4 of 8

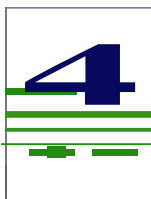

4.1.4.2. DENR documents shall be identified as follows:

e.g. Administrative Order	Title of document
No. 2017 -	Document Number: Year of issuance and Series Number
Date	Stamped at the upper right corner, indicates the date of approval of the document
Barcode	Official Bar code control of the office of the Secretary
Dry Seal	Seal of the Office of Approving Official

4.1.4.3. Controlled QMS documents/records will have a header as follows:

	Department of Environment and Natural Resources QMSMANUAL	Document ID	
		Revision No.	J Issue No. 1
		Date Issued	
		Originating Office	
		Page No.	

Document Name	Name of Document found in the Title
Document I.D.	Unique identifying number for the class of document
Revision No.	Current revision number of the document indicating the last amendment made
Issue Number*	Series number based on the number of copies of the document/record issued
Date Issued	Date of Release
Originating Office	Office that prepared the document/record
"CONTROLLED"	Stamped in Blue or Purple Ink to denote that the document is controlled

--	------------------------------------	-------------------------------------	---

4.1.4.4. Distribution and release to the different offices

The Records Management Division (RMD) will control the records/document.

- Issue No. 1 -Original. For file/storage
- Issue No.2- Central Office QMR / Secretariat for back up
- Issue No. 3 - For uploading to network where Offices can download their copy. Offices shall change the Issue number to "office-000" e.g. BMB-025
- Issue No. 4 to xx for members of Core Team and other authorized recipients of the document/record. The Distribution List shall be approved by the DENR QMR.

The respective Records Officer shall prepare a Distribution Summary for submission and consolidation of the CO-Records Officer.

4.1.4.5. Controlled QMS documents are to be distributed only to pre-identified members of the QMS teams to be used in relation to QMS activities and/or for planning and evaluation purposes. These documents are to be marked "CONTROLLED DOCUMENT". These include the Quality Manual, Quality Policy, Organizational Objectives, Audit Documents, Processes and Procedures, Minutes of Management Review, etc. Regular DENR Documents when used as part of documented information of the QMS shall, likewise be controlled.

4.1.4.6. Personnel may request a copy of a controlled document, clearly indicating the reason or intended use of the document. A request may be submitted to the RMD or the QMS Secretariat for approval of the QMR.

4.1.5. Review and Revisions

4.1.5.1. Documents are reviewed when new policies are adopted such as when laws affecting the operations of the DENR are enacted, when new

	Department of Environment and Natural Resources PROCEDURE Control of Documented Information	Document ID	DE R-PR-QMS-001
		Revision No.	0 - 1 Issue 0. 10 3
		Date Issued	01e 1 6 27 ..
		Originating Office	QMS Core Team
		Page 0.	6 of 8

policies are issued through presidential orders or based on new government priorities adopted in the Medium-Term Development Plan.

4.1.5.2. The Bureaus or other offices concerned will initiate the review of policy documents (DAOS, MCs, MOs, Manuals and procedures, IRR) and make recommendations for amendments, revision or updating of the above policies and guidelines. When a new document is approved, it will be given the same ID as the previous version, indicating its Revision No. A coversheet will be appended to the document which will identify the Revision History and changes and amendments made.

4.1.5.3. Request using the Revision Request Form shall be submitted to the QMR and reviewed by the QMS Core Team. The DENR QMR, upon finalization of revision shall recommend their approval during the Management Review or during EXECOM.

4.1.5.4. Documents are to be held in permanent storage. However, revisions made will be reflected in the filed document which will be marked "REVISED" OR "OBSOLETE" as the case may be, if all the contents have been changed. The status of the document will be indicated in the file's Revision History. Obsolete documents in the QMS document system shall be moved to another folder which will hold all obsolete documents.

4.1.5.5. All terminated Documents/Records on file in hard copy will be marked "OBSOLETE".

4.1.5.6. The Documented Information Matrix shall be used to inventory and account for all the QMS documents on file and on storage at the RMD.

4.2. RECORDS

4.2.1. Creation

Records are created by Process Owners to provide evidence of their implementation of the QMS and its processes. Records are also produced through regular processes of the Department that supports QMS implementation, such as Accomplishment Reports, Financial Records and other reports.

4.2.2. Approval

All records are approved by the responsible Officer or Office Head before they are submitted to the requesting Office or to the Office responsible for collecting and collating such Reports.

	Department of Environment and Natural Resources PROCEDURE Control of Documented Information	Document ID	DENR-PR-QMS-001
		Revision No.	0 Issue No. 103
		Date Issued	D ¹¹ C 16 Zr ;
		Originating Office	QMS Core Team
		Page No.	7 of 8

4.2.3. Transmittal of Records

Records are transmitted through the submission of hard copies. Records may also be transmitted through facsimile and electronic copies. Records are usually submitted to the responsible Office requiring the contained information or knowledge product to update implementation of plans, programs, activities and other information and data holdings of the department.

Transmittal of Records is recorded in the DATS, when received in hard copies

4.2.4. Updating of Records

Records such as reports are submitted based on the requirements of the Work and Financial Plans or based on agreed schedule of submission of reports, such as monthly, quarterly, semi-annually and annually. Updated /latest reports are used for the most current data and information and usually contain the consolidated information for the period.

4.2.5. Storage

Records are kept in hard copy by the responsible Offices and Process Owners.

Records required by the QMS shall be submitted to the QMS Secretariat in hard copy which will be scanned and converted into electronic files which will be stored in the designated folders in the DENR Server. The hard copies shall be forwarded to the RMD for physical storage and management.

The RMD shall maintain the records and reports of the QMS in designated filing and storage space.

4.2.6. Control of Records

The respective Bureau and Office Records Officer shall control documents and records of their processes and implementation of QMS activities. Copy of the records and documents shall be transmitted to the QMS Secretariat in hard copy or through electronic copies.

The Reports shall be forwarded to the RMD where information about the record/document shall be taken and registered in the documented information matrix, and controlled for Central Office use and distribution.

Controlled records and reports shall be identified as described in the control of documents.

	Department of Environment and Natural Resources PROCEDURE Control of Documented Information	Document ID	DE R-PR-QM?-001
		Revision No.	0 Issue No. 103
		Date Issued	C/C 10 2011
		Originating Office	QMS Core Team
		Page No.	8 of 8

Only the most recent and updated records will be used. Records and reports containing data that has been incorporated with the new records/reports shall be placed in conditional termination for eventual disposal in accordance with the rules set by the National Archive of the Philippines.

The Documented Information Matrix shall be used to inventory and account for the records and reports on storage/filed at the RMD.

1. PURPOSE

The purpose of this procedure is to provide guidelines on undertaking an internal audit within the scope of the DENR QMS as defined in the QMS Manual.

2. SCOPE

The internal audit shall cover the systems, processes and operations of the Department and included Offices with reference to the components of QMS as defined in the Quality Manual.

3. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

4. DEFINITION OF TERMS

- 4.1. **Auditee** – the office or person being audited.
- 4.2. **Auditor** – the person with demonstrated personal attributes and competence to conduct an audit.
- 4.3. **Audit Team** - composed of more than one auditor who are assigned to conduct an audit in a particular office and prepare necessary report of findings; led by an Audit Team Leader.
- 4.4. **Audit Plan** – a documented plan prepared prior to the conduct of audit which details activities such as where to go, what to do, when to do, and whom to see.
- 4.5. **Audit Itinerary** – set of one or more audits planned for a specific timeframe, directed towards a specific purpose.
- 4.6. **Audit Checklist** – a set of variables which serves as a guide to an auditor.
- 4.7. **Audit Criteria** – set of policies, procedures, or requirements which are used as reference against which audit evidence is compared.
- 4.8. **Audit Evidence**- qualitative or quantitative record, statement of facts or other information, which is verifiable and relevant to the audit criteria.

	Department of Environment and Natural Resources PROCEDURE Internal Audit	Document ID	DE R-PR-qMS-002
		Revision No.	0 [Issue No. 03
		Date Issued	V- ... I b Zlltl
		Originating Office	QMS Core Team
		Page No.	2 of 3

- 4.9. **Audit Finding-** result of the evaluation of the collected audit evidence against audit criteria.
- 4.10. **Conformity** – fulfillment of a requirement.
- 4.11. **Corrective Action (CA)** – action taken to eliminate the cause of a detected nonconformity or other undesirable situation to prevent its recurrence.
- 4.12. **Opportunity for Improvement (OFI)**- a situation or process that may lead to potential nonconformity.
- 4.13. **Quality Management System Audit-** process of assessing whether the QMS conforms to the requirements of ISO 9001:2015 and has been effectively implemented and maintained.
- 4.14. **Request for Action (RFA)** – a tool/form used to record the audit findings and the corresponding root cause analysis and appropriate actions taken to address it.

5. PROCEDURES

- 5.1. The Audit Program is a document that guides the execution of one or more audits to be conducted within a specific timeframe to achieve defined audit objectives. This is prepared by the internal Quality Audit Committee (IQAC).
- 5.2. The Audit Plan is a document that provides the guidance during the conduct of a particular audit. It provides a description of the audit objectives, criteria, scope, on-site activities, and roles and responsibilities of the auditee and audit team. The scope will include the requirements of ISO 9001:2015 Standard and the results of previous audits. The status of action taken on non-conformances will be prioritized in the audit.
- 5.3. The Audit Team is composed of the Team Leader and members who will be selected from the IQAC. The independence of the Team to conduct audit of activities or areas is a requisite to have an unbiased report.
- 5.4. The Audit Team performs the audit based on the Audit Program and as may be determined by the Management Review.
- 5.5. The Audit Team prepares the Audit Plan and provides the same to the auditee prior to the conduct of the audit. The Team Leader coordinates with the representative of the office to be audited and conduct an opening meeting or preliminary conference to discuss the purpose and scope of the audit.

	Department of Environment and Natural Resources PROCEDURE Internal Audit	Document ID	DENR-PR-QMS-002
		Revision No.	0 Issue No. in 1
		Date Issued	URS 16 ZI
		Originating Office	QMS Core Team
		Page No.	3 of 3

- 5.6. The Audit Team shall conduct interviews, examines documents and observes activities and records conformance, non-conformance or opportunities for improvement in their checklist.
- 5.7. An exit conference or closing meeting with the auditee takes place after the actual audit to discuss the conformance, non-conformance, or opportunities for improvement. The Team shall discuss and consolidate the audit findings and prepares the Audit Summary Report to be presented to the auditee during the exit conference.
- 5.8. The Audit Team shall prepare and document non-conformance according to the procedure ***Corrective and Preventive Action***. Corrective Action Request (CAR) shall be prepared and issued to the auditee for observations on non-conformance.
- 5.9. The Audit Team shall determine the close out date of the CAR based on the Audit Program and the requirement of the Management Review.
- 5.10. The Audit Team shall follow up and/or validate the corrective actions taken by the auditee. If found positive, the CAR shall be closed. Otherwise, the CAR shall be re-issued.
- 5.11. The Team Leader shall prepare the Audit Final Report to be submitted for Management Review. She shall also report the evaluation and status of non-conformance for Management Review.

		Revision No.	03
		Date Issued	1.1.2016
		Originating Office	QMS Core Team
		Page No.	1 of 2

1. SUMMARY

- 1.1. This procedure defines the requirements for identifying, processing and disposition nonconforming service.
- 1.2. Nonconforming service is any service provided to stakeholders/clients that does not conform to requirements, which may include statutory/regulatory, administrative, procedural or that of the DENR or the Standard.
- 1.3. Nonconforming service can be identified at any time, by any person or entity, including employees, the customer, regulatory authorities, etc.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCEDURES

- 3.1. When nonconforming services are identified by employees, this shall be documented on the *Nonconforming Service Report (NSR)*. If the nonconforming service is reported by a third party, including a customer, the Public Assistance Desk Officer shall capture the information provided by the third party on the NSR, including referencing any applicable notes, emails, or other documentation.
- 3.2. The NSR is sent to the Quality Management Leader (QML) of respective offices for review and initial continuation of the nonconformance. If the verification shows that nonconformance did not occur, the NSR is closed without further action.
- 3.3. For verified nonconformance, the concerned QML shall assign the NSR to appropriate employee who will document details of the NSR and conduct a root cause analysis. S/he shall oversee the disposition of the nonconforming service. This may include providing corrected services, filing of Corrective Action Request (CAR) or other actions. All such actions shall be documented on the NSR form.
- 3.4. The QML shall submit summary of the NSR to the QMR, who will present this during the Management Review.

		Page No.	I of S

1. SUMMARY

- 1.1. In an effort to ensure continual improvement, DENR engages in corrective and preventive action to discover, investigate, and correct non-conformances related to DENR services, its processes, and its quality system.
- 1.2. For internal issues, the DENR shall refer to this as the Corrective Action Request (CAR) system.
- 1.3. For issues which are found to be the fault of suppliers, the Supplier Corrective Action Request (SCAR) system shall be used; this is defined in the procedure *Control of External Providers*.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCEDURES

- 3.1. The Corrective Action Request system shall be used to address all of the following:
 - 3.1.1. Customer complaints;
 - 3.1.2. Employee reports of problems with equipment, procedures, processes, buildings, infrastructure;
 - 3.1.3. Employee suggestions for improvement;
 - 3.1.4. Resolving trends associated with service nonconformities;
 - 3.1.5. Process nonconformities;
 - 3.1.6. Audit findings (internal or external); and
 - 3.1.7. Management review action items.
- 3.2. All employees may submit a corrective or preventive action request when they discover an existing or potential nonconformity against ISO 9001 requirements, DENR procedures, customer requirements, or statutory/regulatory requirements.
- 3.3. When trends are noticed within nonconforming services, then a Corrective Action Request may be issued to investigate the cause of the trend.

<div style="font-size: 2em; font-weight: bold; color: blue;">4</div> <div style="width: 100px; height: 100px; background: linear-gradient(to right, green 49%, yellow 49% 51%, yellow 51% 53%, green 53%); border: 1px solid black; margin-top: 5px;"></div>	Department of Environment and Natural Resources PROCEDURE Corrective and Preventive Action	Document ID	DENR-PR-QMS-004
		Revision No.	01 Issue No. 03
		Date Issued	OCT 16 2016
		Originating Office	QMS Core Team
		Page No.	2 of 5

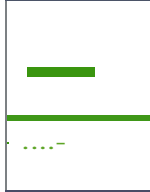

- 3.4. This system shall provide for the reporting and resolution of both *corrective* action requests (existing problems) and *preventive* action requests (potential problems).
- 3.5. The Corrective Action Request system shall be comprised of two forms:
- The *Corrective Action Request* (CAR) shall be used by employees to request corrective or preventive action, or to submit suggestions for improvement.
 - The *Corrective Action Request Log* (CAR Log) shall be used to track CARs and to provide trend data on the CAR system for later management review.
- 3.6. The CAR may be obtained from the DENR internal Web portal, the DENR Internal Audit Committee, the office of the QMRs or the Public Assistance Desk. The employee requesting action shall fill out the following items on the upper portion of the form:

Item	Instruction
CAR number	Leave blank, will be filled out later by the DENR Internal Audit Committee
Type of action requested	Choose one of the following: 1. Corrective - when reporting existing problems 2. Preventive - when reporting potential problems 3. Opportunity for improvement/suggestion - when reporting a pure improvement action, unrelated to any particular problem
Source	indicate where the report originates from. In most cases, this will be from employees, but if an employee is filling the CAR on behalf of someone else, indicate the original source (i.e., customer, supplier, etc.)
Process	Indicate the process for which the issue being reported is most likely covered by. This may be revised by the DENR Internal Audit Committee, as needed.
Priority	Choose one of the following: 1. Low - Respond as availability allows; may extend deadline with permission of the DENR Internal Audit Committee. 2. Medium - Respond as soon as feasible; deadline established, but may be interrupted by higher priority activities. 3. High - Respond by established deadline, which may interrupt other staff working low or medium priority activities. 4. Urgent/Critical - Respond immediately with sustained effort using all available resources until resolved. Company at legal or

		Originating Office	QMS Core Team
		Page No.	3 of 5

Item	Instruction
	other compliance risk.
Issue	Describe the problem being reported or the suggestion offered; be as detailed as possible. Internal audit findings must comply with the requirements put forth in the procedure <i>Internal Audits</i>

- 3.7. The employee shall then send the CAR form to the DENR Internal Audit Committee.
- 3.8. The DENR Audit Committee shall fill out the CAR form in the CAR Log by entering the information in the next available line in the log. The information entered should match the indicated pattern on the CAR form (i.e., the process, priority, etc.). Under "Brief Description", only a short sentence describing the issue shall be entered, not the entire text of the issue; this is only to help remember the nature of the CAR later.
- 3.9. The DENR Audit Committee shall assign the CAR to one or more employees who are best able to research and resolve the issue, and enter this in both the CAR log and the CAR form under "Assigned To Field." This person is hereinafter referred to as the "Assignee."
- 3.10. The DENR Audit Committee shall assign a reasonable response timeframe for the CAR with the assistance of the assignee. The timeframe will take into consideration the level of effort expected, costs, risks, etc.
- 3.11. The DENR Audit Committee shall then send the CAR to the assignee.
- 3.12. The log shall highlight when CARs are overdue, based on the assigned date. In the event of an overdue CAR, the DENR Audit Committee will either negotiate a revised date with the Assignee, or escalate the CAR to the Assignee's manager for attention.
- 3.13. The Assignee shall conduct a root cause analysis to determine the cause(s) of the problem. This exercise should be thoughtful and detailed; so as to ensure the actual root causes are identified. Failure to properly conduct root cause analysis may result in the wrong cause being acted upon, and thus the problem not being permanently resolved.
- 3.14. Root cause analysis is mandatory for corrective or preventive actions; It is not required for opportunities for improvement or suggestions since these may not be attached to any known problem; in such cases root cause analysis is optional.

	Department of Environment and Natural Resources PROCEDURE Corrective and Preventive Action	Document ID	DE R-PR-QMS.Q04
		Revision No.	01 Issue No. 111
		Date Issued	OS 1 b ZL,0
		Originating Office	QM Core Team
		Page No.	4 of 5

- 3.15. The Assignee will then develop an action plan to address the root cause and eliminate it. By eliminating the root cause, the problem should never occur or recur.
- 3.16. For some preventive and corrective action issues, management may elect to perform a risk assessment as part of the action plan determination.
- 3.17. The Assignee shall then implement the plan, updating the CAR as the plan progresses.
- 3.18. Once the action is complete, the assignee shall sign the CAR and indicate a completion date. She/he shall then return the CAR to the DENR Audit Committee.
- 3.19. The DENR Audit Committee will update the log entry for the CAR, indicating the action complete date.
- 3.20. The DENR Audit Committee shall perform independent verification of the actions taken to ensure the actions are effective in resolving the root cause(s). This verification shall examine evidence and take into consideration the following:
 - Has the action plan removed the root cause(s)?
 - Does the action appear to eliminate the original issue reported?
 - Were any related documents updated, as needed?
 - Was training conducted, if required?
 - Does the action require an update to the internal audit schedule?
 - Were all interested parties properly notified of the actions taken?
- 3.21. The DENR Audit Committee shall record the results of the verification activity in the log.
- 3.22. If the issue is satisfactorily addressed, the DENR Audit Committee may close the CAR by indicating this in the final column on the log. The CAR form is then filed.
- 3.23. If the DENR Audit Committee determines the issue is not properly addressed, the Corrective Action Request may be re-assigned for further action, or a new CAR filed. This is indicated in the log.
- 3.24. The Corrective and Preventive actions over time shall be reported during Management Review.

1. SUMMARY

- 1.1. This procedure defines the processes in the control of and monitoring the services provided by external providers that are necessary in the delivery of quality service by DENR to its clients. The control of external providers of services shall include delivery of products or goods, and outsourced services.
- 1.2. The externally provided services are generally acquired as procurement in accordance with the Republic Act 9184, otherwise known as 'Government Procurement Reform Act' and its 2016 Revised Implementing Rules and Regulations (IRR).
- 1.3. To ensure transparency, accountability, streamlined process, competitiveness and conformity of specifications of services required, the DENR established procedures and protocols to be followed based on RA 9184 and its IRR.
- 1.4. The Bids and Awards Committees of the various offices (e.g., Central Office, Bureaus and Regional Offices) and their Secretariats and Technical Working Groups and their Heads of the Procuring Entity (HoPE) implements the bidding processes as stipulated in RA 9184 and its implementing rules and regulations. The Inspection and Pre-Inspection Committees and the Procuring Entities play an important role in ensuring that the services are delivered in accordance with the specifications or Terms of Reference before any payment is made.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. DEFINITION OF TERMS

- 3.1. **Control of External Providers of Services** - refers to a set of requirements to ensure that externally provided services conforms to relevant rules, laws, and regulations in accordance with RA 9184.
- 3.2. **External Providers** - third party providers contracted to provide products and services.
- 3.3. **Services** - performance of a Consultancy, work and/or set of activities to be provided by an external provider in accordance with the terms of reference of the contract.
- 3.4. **Outsourced Services**- contracted delivery of products and services

 	Department of Environment and Natural Resources PROCEDURE Control of External Providers	Document ID	DENR-PR-QMS-005
		Revision No.	0 Issue-No. 3
		Date Issued	DC 16 2Cif,
		Originating Office	QMS Core Team
		Page No.	2 of 7

- 3.5. **Project Procurement Management Plan (PPMP)** – document prescribed by RA 9184 containing the requirements for goods and services of the project.
- 3.6. **Annual Procurement Plan (APP)** – consolidated list of goods and services required by the agency.
- 3.7. **Procurement-** refers to the acquisition of goods and consulting services in accordance with RA 9184.
- 3.8. **Approved Budget for the Contract (ABC)** – refers to the budget for the contract duly approved by the HoPE as provided for in the GAA.

4. PROCEDURES

- 4.1. All offices shall prepare and submit their PPMP which will form part of the DENRAPP.
- 4.2. Based on the approved PPMP and APP, all procurements shall have approved Procurement Requests, Terms of Reference (ToR) if applicable, and Certificate of Availability of Funds (CAF).
- 4.3. Omnibus Resolutions are prepared by the BAC annually to streamline the process of procurement. The Omnibus Resolutions allow for the acquisition of products and services through alternative mode of procurement as stipulated in RA 9184 and its IRR.
- 4.4. All other procurements not covered by the Omnibus Resolutions shall be subject to the evaluation of the Bids and Awards Committee based on the financial and technical capabilities of the external providers. The BAC shall prepare a resolution indicating the mode of procurement, for the approval of the HoPE or his/her duly authorized representative.
- 4.5. The Supply Management Section of the Property and Supply Management Division (SMS-PSMD) or its counterpart in the Bureaus, Regional and PENR offices shall prepare the Request for Quotation. All Requests for Quotation shall be posted in the DENR website and bulletin board and faxed or emailed to prospective suppliers. For procurement with Approved Budget for the Contract (ABC) more than P50,000.00, the Request for Quotation shall also be posted at the PhilGEPS website.
- 4.6. The following steps shall be followed depending on the amount of ABC:
 - 4.6.1. Small Value Procurement, which covers ABC of below 1 million pesos

 <p>Department of Environment and Natural Resources</p> <p>PROCEDURE</p> <p>Control of External Providers</p>	Document ID	DE R-PR-QMS-005
	Revision No.	01 Issue No. 3
	Date Issued	err 16 2016
	Originating Office	QMS Core Team
	Page No.	3 of 7

- 4.6.1.1. An Abstract of Quotation shall be prepared by the SMS-PSMD or its counterpart after getting at least three (3) quotations from bonafide suppliers. The Abstract of Quotation shall be endorsed to the Procuring Entity for the evaluation. The Procuring Entity shall recommend to the HoPE or his/her duly authorized representative the most advantageous bid.
- 4.6.1.2. The SMS-PSMD or its counterpart shall prepare the Notice of Award (NOA) for approval of the HoPE or his/her duly authorized representative. Once approved, the NOA shall be provided to the winning bidder.
- 4.6.1.3. Once the winning bidder acknowledges the NOA, the Purchase Order (PO)/Contract and the Notice to Proceed (NTP) shall be prepared by the SMS-PSMD or its counterpart to be signed by the HoPE or his/her duly authorized representative.
- 4.6.1.4. The SMS-PSMD or its counterpart shall submit the signed PO/Contract to the Budget and Accounting Divisions for fund obligation.
- 4.6.1.5. The PO/Contract and NTP shall be provided to the winning bidder for their acknowledgement and conformance. The PO/Contract shall contain the terms and conditions of the delivery of procured products or services.
- 4.6.1.6. The procured products or services are delivered and accepted by the SMS-PSMD or its counterpart in accordance with the PO/Contract.
- 4.6.2. Public Bidding Procurement, which covers ABC of 1 million pesos and above, follows the procedure stipulated in RA 9184 and its IRR.
 - 4.6.2.1. The Public bidding process is conduct through BAC and assisted by the BAC secretariat and technical working group with a representative from the pool of technical and financial and legal experts, and representative of end user.
 - 4.6.2.2. The PSMD and its counterpart in the offices concerned shall prepare the bidding documents with the guidance the BAC following the standard forms and manual prescribed by the Government Procurement Policy Board (GPPB).

 <p>Department of Environment and Natural Resources</p> <p>PROCEDURE</p> <p>Control of External Providers</p>	Document ID	DENR-PR-QMS-005
	Revision No.	01
	Date Issued	06/16/2017
	Originating Office	QMS Core Team
	Page No.	4 of 7

- 4.6.2.3. Invitation to bid/request for expression of interest shall be posted in the website of PhilGEPS and in newspaper of daily circulation depending on the ABC. The same information is also provided to prospective bidders from the DENR database of eligible providers.
- 4.6.2.4. For Consulting Services, an eligibility check and short listing shall be conducted based on the required legal, technical and financial documents as stipulated in RA 9184 and its IRR. The eligibility envelopes shall be submitted on or before the deadline specified and opened before the pre-bid conference and bid conference in order to determine eligibility of prospective bidders using a non-discretionary "pass/fail" criterion. The BAC shall draw up a short list of three (3) to seven (7) consultants from those prospective bidders evaluated as eligible using a set of criteria specified in the Request for Expression of Interest. The BAC shall recommend the shortlist of consultants to the HoPE for consideration and approval.
- 4.6.2.5. Pre-bid conference shall be conducted and opened to prospective bidders and for consulting services, the short-listed bidders. It is conducted to clarify or explain the requirements, terms and conditions stipulated in the bidding documents. If there are changes or clarification in the original bid document, a bid supplement/bulletin shall be issued.
- 4.6.2.6. All bidders shall submit their proposals in accordance with the bidding documents and RA 9184 and its IRR. The sealed bid envelopes shall be received by the BAC Secretariat on the date, time and place specified in the invitation to bid. Bids submitted after the deadline shall no longer be accepted. The BAC Secretariat shall notify in writing all bidders whose bids it has received.
- 4.6.2.7. The BAC shall open the bid in public to determine each bidder's compliance with the documents required to be submitted for eligibility based on the checklist of required documents using a non-discretionary "pass/fail" criterion. Bids that fails to include any requirement or are incomplete shall be considered failed.
- 4.6.2.8. The financial proposals of the bidders who passed the first stage screening shall be evaluated to the determined the lowest calculated bids/highest rated bid. Bid price that exceeds the ABC shall be considered "failed".
- 4.6.2.9. The BAC shall then prepare and sign the Abstract of Bids and attach thereto all the bids with their corresponding bid securities

	Department of Environment and Natural Resources PROCEDURE Control of External Providers	Document ID	DENR-PR-QMS-005
		Revision No.	0 Issue_No. 1

and the minutes of proceedings of the bidding. The Abstract of Bids shall contain the following:

- 4.6.2.9.1. Name of contract and its location, if applicable;
 - 4.6.2.9.2. Time, date and place of bid opening; and
 - 4.6.2.9.3. Names of bidders and their corresponding calculated bid prices arranged from lowest to highest, the amount of bid security and the name of the ensuing entity.
- 4.6.2.10. For Consulting Services, the BAC shall notify and invite the consultant with the highest rated bid for the opening of financial proposal for the purpose of conducting negotiation with the said consultant. In the letter of notification, the BAC shall inform the consultant of the issues in the technical proposal the BAC may wish to clarify during negotiation. The negotiations shall cover the following:
- 4.6.2.10.1. Discussion and clarification of the terms of reference and scope of services;
 - 4.6.2.10.2. Discussion and finalization of the methodology and work program proposed by the consultant;
 - 4.6.2.10.3. Consideration of appropriateness of qualifications and pertinent compensation, number of person-months and the personnel to be assigned to the job;
 - 4.6.2.10.4. Discussion on the services, facilities and data, if any;
 - 4.6.2.10.5. Discussion on the financial proposal submitted by the consultant; and
 - 4.6.2.10.6. Provisions of the contract.
- 4.6.2.11. The bidder with LCB/HRB shall undergo post qualification to verify, validate and ascertain all statements made and documents submitted based on the legal, technical and financial requirements. The bidder shall submit to the BAC his/her latest income and business tax returns and other appropriate licenses and permits as required by law.
- 4.6.2.12. Once validated, the BAC shall declare the LCB/HRB as the Lowest Calculated and Responsive Bid (LCRB)/Highest Rated and Responsive Bid (HRRB) and recommend to the HoPE or his/her duly authorized representative the award of contract to the said bidder at its bid price.
- 4.6.2.13. If the bidder with LCB/HRB fails the post-qualification, the BAC shall initiate and complete the same post-qualification process on

	Department of Environment and Natural Resources PROCEDURE Control of External Providers	DocumentID	DENR-PR-QMS-005
		Revision No.	0 Issue-No. 6
		Date Issued	PRR- 10 " " I

		Page No.	6 of 7

the bidder with the next LCB/HRB until a bidder pass the criteria for post-qualification and declared as LCRB/HRRB.

4.6.2.14. Once approved, the HoPE or his/her duly authorized representative shall issue the Notice of Award (NOA) to the LCRB/HRRB. The BAC shall notify in writing all the losing bidders of the bid results. The NOA shall be posted in the PhilGEPS and DENR websites.

4.6.2.15. The HoPE or his/her duly authorized representative shall sign the contract and issue the Notice to Proceed in accordance with the provisions of RA 9184 and its IRR. The Contract and the Notice to Proceed shall be posted in the PhilGEPS and DENR websites.

4.6.2.16. The procedure for public bidding of consulting service shall follow the pro

4.6.2.17. The HoPE shall declare Failure of Bidding provided that:

4.6.2.17.1. No bids are received;

4.6.2.17.2. All prospective bidders are not eligible;

4.6.2.17.3. All bids fail to comply all the bid requirement or fail post-qualification; or

4.6.2.17.4. The bidder with LCRB/HRRB refuses without justifiable cause the award of contract.

4.7. Once delivered, the DENR Inspection and Pre-Acceptance Committee (IPC) shall inspect the products and services as described in Procedure: Inspection and Acceptance.

4.8. The procuring entity shall accept the delivered products and/or services in terms of the specification, quantity and quality.

4.9. Once inspected, Disbursement Voucher is prepared then forward to Budget and Accounting Divisions/Sections for processing of payment.

5. CONTROLS

5.1. All externally provided products and services are subject to the following controls:

5.1.1. Compliance with RA 9184 and its IRR;

5.1.2. Specifications or Terms of Reference;

5.1.3. Service Contracts, specifying the delivery temls (date, time and place);

5.1.4. Green procurement and life cycle requirements;

	Page No.	7 of 7

5.1.5. Inspection by independent committee; and

5.1.6. Acceptance of Procuring Entity.

6. SUPPLIER CORRECTIVE ACTION REQUESTS

6.1. A Supplier Corrective Action Requests (SCAR) log shall be maintained by the Internal Audit Committee (IAC) for monitoring of the corrective actions to address nonconformities. The SCAR allows for the flow down of corrective action requirements to a supplier when a supplier is found to be responsible for a particular nonconformity.

6.2. Any procuring entity may submit a SCAR Form to the PSMD. The PSMD shall notify the external provider, who has shown quality problems, of their nonconformance for their corrective action. Failure of the external provider to correct nonconformance may result to the negative adjustment of that provider's evaluation standing or blacklisting depending on the degree of nonconformance.

6.3. The SCAR log shall be updated regularly and shall be reported for the Management Review.

1. SUMMARY

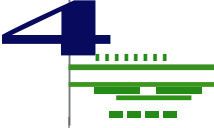

- 1.1. This procedure defines the process and methods of inspection and pre-acceptance of purchased products to ensure that the same is in accordance with the specifications contained in the purchase orders/requests.
- 1.2. The Inspection and Pre-Acceptance Committee (IPC) is responsible for implementation and management of inspection and pre-acceptance activities.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00,2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCEDURES

- 3.1. The Requests for Inspection are received from the Property and Supply Management Division.
- 3.2. The Receiving Clerk will record the Requests for Inspection in the database at the IPC.
- 3.3. The IPC Chair assigns the requests for inspection to the member/members of the Inspection and Acceptance Committee for the conduct of the actual inspection to determine/verify the following against the *Purchase Order*:
 - 3.3.1. Quantity
 - 3.3.2. Specification
 - 3.3.3. Delivery Terms
- 3.4. Any discrepancy on the quantity and specifications as verified during the actual inspection will be reported to the Property and Supply Management Division for correction and/or replacement.
- 3.5. If there is a delay in the delivery of the purchased goods/services, corresponding penalty will be computed and imposed.
- 3.6. If the quantity and specifications have been fully complied, the Inspection and Acceptance Report will be signed by the IPC Inspector and the IPC Chair and submitted to PSMD for further processing. Goods that are covered by Property Acceptance Receipt (PAR) and/or Inventory of Custodian Slip (ICS) will be subject to submission of duly approved PAR and ICS. Further, goods/services purchased must be covered by Certificate of Acceptance by the end-user.

	Department of Environment and Natural Resources PROCEDURE Measuring Stakeholder - Client Satisfaction	Document ID	DE R-PR-QMS-007
		Revision No.	0 Issue No. 3
		Date Issued	January 16, 2016
		Originating Office	QMS Core Team
		Page No.	1 of 2

1. SUMMARY

- 1.1. This procedure defines the requirements for measuring stakeholder/client satisfaction.
- 1.2. To monitor the service outcomes in terms of meeting the client's requirements and expectations, DENR periodically obtains stakeholder's feedback and perception.
- 1.3. Stakeholder/client satisfaction is determined through Walk-In Client Satisfaction Survey and Third Party Stakeholder Satisfaction Survey.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCEDURES

3.1. Walk-In Client Satisfaction Survey

- 3.1.1. Feedback from transacting or walk-in clients shall be gathered through a Walk-In Client Satisfaction Survey Form which is facilitated during their visit to any DENR office.
- 3.1.2. Each office shall designate an officer of the day who is responsible for receiving client requests and inquiries and consequently provides assistance needed by the clients. She shall evaluate and categorize requests and complaints based on the areas of concerns and/or urgency of the issues and refer them to the appropriate office or unit. Upon completion of client transaction, the officer of the day shall facilitate the handling out of the Walk-In Client Satisfaction Survey Form.
- 3.1.3. The accomplished survey forms shall be collected by the officer of the day and forwarded to the SCIS or respective counterparts in the bureaus and field offices for analysis to determine the extent of stakeholder/client satisfaction with services received from the DENR.
- 3.1.4. The SCIS or respective counterparts in the bureaus and field offices shall also prepare and submit a report on the stakeholder/client feedbacks and recommend proposals for improvement of the DENR services to the concerned office.

 <p>Department of Environment and Natural Resources</p> <p>PROCEDURE</p> <p>Measuring Stakeholder- Client Satisfaction</p>	Document ID	DENR-PR-QMS-007
	Revision No.	0 Issue No. j
	Date Issued	11/16/2016
	Originating Office	QMS Core Team
	Page No.	2 of 2

3.2. Third Party Stakeholder Satisfaction Survey

- 3.2.1. This survey shall be outsourced to ensure objectivity of the results and shall be conducted as required by the management based on its assessment of the pressing issues and concerns of the Department.
- 3.2.2. The respondents shall be selected based on the sampling frame or databases of clients who availed of the service of the DENR in a given period.
- 3.2.3. The result of the survey shall be forwarded to the Policy and Planning Service through the Program Monitoring and Evaluation Division and shall be used as basis for continual improvement of the DENR services.

3.3. Feedback may also be gathered through interviews, social media and use of suggestion boxes in all DENR offices.

3.4. The result of the stakeholder/client satisfaction surveys shall be documented and presented for Management Review.

1. SUMMARY

- 1.1. This procedure provides direction on the process of conducting Management Review to evaluate the effectiveness of the DENR QMS.
- 1.2. The Management Review shall address the possible need for changes to Quality Policy, Quality Objectives and other elements of the QMS in the light of the QMS Audit results, changing circumstances and the DENR's commitment to continual improvement.
- 1.3. The DENR Executive Committee shall attend the management review meetings.
- 1.4. The DENR Quality Management Representative (QMR) is responsible for implementation of this procedure.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. DEFINITION OF TERMS

- 3.1. DENR Executive Committee (EXECOM) - is composed of officials of the DENR from the Secretary to the Director Level, Head Executive Assistant, and employee's representative that conducts regular meetings to discuss policy issues and priority issues and concerns.
- 3.2. Management Committee (ManCom) – the counterpart of the EXECOM in the Bureaus and Regional Offices composed of the Director, Assistant Director and other officials that conduct regular meetings to discuss and review implementation of DENR plans and programs in their respective areas of jurisdiction.
- 3.3. Continual improvement - process of enhancing the quality management system to achieve improvements in the delivery of service and overall ENR management system.
- 3.4. Management Review - the periodic assessment by the EXECOM at the top management level and the MANCOM at the Bureau and Regional levels of the quality management system to ensure its continuing suitability, adequacy, effectiveness and alignment with the mandates of the DENR. The management review process shall ensure that the necessary information is collected to allow management to carry out this evaluation. It shall address possible need for changes to Quality Policy, Quality Objectives and other

<div> <div>  </div> <div> Department of Environment and Natural Resources PROCEDURE Management Review </div> </div>	Document ID	DENR-PR-QMS-008

	Page No.	2 of 3

elements of the Quality Management System, based on the results of the QMS audit, changing circumstances and the commitment to continual improvement.

4. PROCEDURE

- 4.1. The MANCOM at the Bureaus and Regional levels shall conduct a meeting as necessary, attended by the concerned officials and personnel and QMS leaders to review the implementation of QMS in their respective offices;
- 4.2. The MANCOM reports to the EXECOM through submission of documented information or through the expanded EXECOM, the results of their respective management review, and make recommendations either for corrective actions or improvement of implementation. The MANCOM shall also report on the adequacy of the Quality Policy, support services and other resource requirements;
- 4.3. The EXECOM at the Central Office shall conduct Management Review Meetings at least once a year or as the need arises to review the suitability, adequacy, effectiveness and alignment with the mandates of the DENR of the QMS.
- 4.4. The Management Review Meetings shall include analysis of the following inputs:
 - 4.4.1. Status of actions from previous management reviews;
 - 4.4.2. Changes in external and internal issues that are relevant to the QMS;
 - 4.4.3. Information on the performance and effectiveness of the QMS, including trends in:
 - 4.4.3.1. Customer satisfaction and feedback from relevant interested parties;
 - 4.4.3.2. Extent to which quality objectives have been met;
 - 4.4.3.3. Process performance and conformity of services;
 - 4.4.3.4. Nonconformities and corrective actions;
 - 4.4.3.5. Monitoring and measurement results;
 - 4.4.3.6. Audit results; and
 - 4.4.3.7. Performance of external providers;
 - 4.4.4. Adequacy of resources;
 - 4.4.5. Effectiveness of actions taken to address risks and opportunities; and
 - 4.4.6. Opportunities for improvement.
- 4.5. This review shall include assessing opportunities for improvement and the need for changes to the QMS, including the Quality Policy and Quality Objectives.

		Page No.	3 of 3

- 4.6. The Management Review Meeting shall generate Corrective and/or Preventive Action Requests (see procedure *Corrective and Preventive Action*), or take other recorded action, as a result of review topics in an effort to improve the management system, products, processes and services, and to address resource needs.
- 4.7. This includes any decisions and actions related to the improvement of the effectiveness of the quality management system and its processes, improvement of product related to customer requirements, and resource needs.
- 4.8. Minutes of the meetings are taken and maintained. The form *Management Review Meeting Minutes* may be used as a template for the records, or may be completed and filed as the finished record.
- 4.9. The results of the Management Review shall be made part of the QMS documented information and shall be basis for continual improvement and ensuring the suitability, adequacy and effectiveness of the QMS.

	Department of Environment and Natural Resources PROCEDURE Filling-up of Vacant Positions	Document LD	DENR-PR-QMS-D09
		Revision No.	0 Issuc.No. b3
		Date Issued	16 2 11
		Originating Office	QMS Core Team
		Page No.	1 of 1

1. SUMMARY

- 1.1. The purpose of this procedure is to define the process for hiring employees to ensure these requirements are met.
- 1.2. The Personnel Division of the Human Resource Development Service (HRDS) is responsible for the implementation and management of this procedure.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCEDURES

- 3.1. The filling up of vacant position in the DENR shall follow the process as stipulated under the Merit, Selection and Promotion Plan (MSPP).
- 3.2. It is mandatory that the applicants meet all the minimum requirements of the position being applied for. The applicants are initially evaluated based on the following:
- 3.2.1. Educational Attainment
 - 3.2.2. Relevant Training(s) Attended
 - 3.2.3. Relevant Experience(s) Attended
 - 3.2.4. Eligibility
- 3.3. A Position Description has been defined for each position as a guide in determining the competency of the applicants.
- 3.4. All appointments are submitted to the Civil Service Commission for validation.
- 3.5. All newly appointed personnel are required to undergo employee orientation about DENR functions and mandates, Civil Service rules and regulations, and other relevant topics. A record of the completion of the orientation is maintained in the employee's training file.

 <p>Department of Environment and Natural Resources</p> <p>PROCEDURE Learning and Development</p>	Document ID	DENR-PR-QMS.Q10
	Revision No.	01 Issue No. 03
	Date Issued	1621r
	Originating Office	QMS Core Team
	Page No.	1 of 3

1. SUMMARY

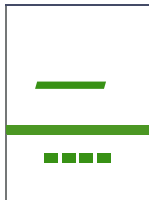

- 1.1. The purpose of this procedure is to define the process for Learning and Development (L&D) of employees in order to meet the required competencies towards the delivery of quality core services. This also covers the evaluation of the effectiveness of the L&D programs provided.
- 1.2. The Training Development Division of the Human Resource Development Service (HRDS) is responsible for the implementation and management of this procedure.

2. REVISION AND APPROVAL

Rev.	Date	Nature of Changes	Approved By
00, 2016		Original issue.	Undersecretary Ernesto D. Adobo, Jr.

3. PROCEDURES

- 3.1. L&D interventions are deliberately and systematically designed, developed, implemented and evaluated in accordance with the standards provided in the Program to Institutionalize Meritocracy and Excellence in Human Resource Management (PRIME-HRM) system of the Civil Service Commission.
- 3.2. The L&D interventions shall be based on identified and verified needs that are directly aligned to the DENR's mandates and delivery of service. These interventions shall be identified in the Human Resource Development Plan prepared annually.
- 3.3. L&D interventions shall be implemented by the TDD-HRDS thru in-house programs, government training centers, or third-party providers with qualified L&D practitioners.
- 3.4. The effectiveness of L&D interventions shall be assessed by verifying attainment of the objectives of the learning event. This shall be used for updating and continual improvements in L&D design, administration and delivery.
- 3.5. The TDD shall maintain a database of the L&D events attended by all employees. Other training shall be recorded on individual employee training records, which include the following information:
 - 3.5.1. Personnel trained
 - 3.5.2. Type of training
 - 3.5.3. Duration of training
 - 3.5.4. Date of completion

	<p>Department of Environment and Natural Resources</p> <p>PROCEDURE</p> <p>Learning and Development</p>	Document ID	DENR-PR-QMS-010
		Revision No.	01 Issue No. 11
		Date Issued	rr1 6.7.11
		Originating Office	QMS Core Team
		Page No.	2 of 3

3.5.5. Location of training

3.5.6. Training provider/Name of instructor who conducted the training

3.6. Personnel undergoing third party training shall submit a copy of the L&D certificate to the TDD-HRDS for verification and updating of his/her L&D records.

3.7. Reports are prepared and maintained by the TDD which includes post-training evaluation.

4. L&D ON DENR QMS

4.1. The TDD-HRDS shall implement L&D program for the awareness on the requirements of the DENR QMS. The TDD-HRDS shall assess the effectiveness of the said program.

4.2. The L&D on DENR QMS shall be included in the audit process. The result of the audit shall be made part of the Management Review and shall be the basis for continual improvement.

5. L&DEVALUATION

5.1. L&D programs are evaluated and updated in response to developments in policies, programs and projects of the DENR or the national government. As a result, new competencies are also required.

5.2. The L&D programs shall also be evaluated to address the identified weaknesses in the employee's work performance and/or delivery of service. These weaknesses may be identified through the Individual Performance Commitment Review (IPCR), customer complaints, or implementation of DENR processes.

5.3. Pre- and post-tests may be developed and given to assess training effectiveness. Procedures shall define the method for giving the test and the passing grades / criteria required and the actions to be taken when an employee fails such a test.

5.4. The Internal Audit process shall evaluate the effectiveness of training and its effects on quality of service delivery. The result of the audit in the L&D program shall be included in the management review as part of the continual improvement of the DENR QMS.
